The CareerStart Addition percentage will vary by the Deferment Period, Income Period, Age, Gender, Premium Payment Term, Plan Option and Annualized Premium, and will be applicable on the Total Premiums Paid^^ (year on year).

   CareerStart Additions = CareerStart Addition Rate X Total Premiums Paid^^

   For the purpose of calculation of both Guaranteed Income and CareerStart Addition, premium amount shall exclude any applicable discount.

Waiver of premium on diagnosis of covered critical illness shall not be applicable for a Reduced Paid-up policy.

Critical illnesses covered under this option are mentioned ahead along with its definitions, exclusions and other terms and conditions.

The Policyholder/Nominee shall also have the option to convert the monthly income instalments into lumpsum, at the time of claim or post commencement of income payment. Present value of outstanding monthly income instalment shall be payable in such case.

The interest rate/discount rate used for calculating monthly income or present value of outstanding monthly instalment shall be [5-year G-sec - 1%] p.a. rounded-up to nearest 50 bps interest rate. G-Sec rates will be taken from www.fbil.org.in. The interest rate will be reset at the beginning of each Financial Year. Additional Clarifications

- In case of death of **Life Assured after the end of Policy Term** (during the **Income Period**), **no death benefit will be payable**. However, the **Guaranteed Income** along with the **CareerStart Benefit**, will continue to be paid as scheduled.
- If **Waiver of Premium on Death of Life Assured** is triggered and the **death benefit is paid**, the policy **cannot be surrendered, and no policy loan can be availed** thereafter. However, all applicable benefits will continue to be paid in full as per the policy terms. Policy surrenders or loan is allowed **only while the Life Assured is alive.**

Terms And Conditions

Surrender Benefit Under The Plan

We advise you to continue your policy and enjoy the benefits of your policy. However, we understand that in certain circumstances you may want to surrender your policy.

You can surrender the policy at any time during the policy term after completion of the first policy year provided one full year's premium has been paid. The surrender benefit payable will be the highest of the guaranteed surrender value (GSV) and special surrender value (SSV) as on date of surrender.

Guaranteed Surrender Value (GSV):

The company guarantees a minimum surrender value which is equal to Guaranteed Surrender Value. GSV shall be payable provided 2 full years' premiums have been paid. The GSV factors are guaranteed

throughout the Policy Term.

GSV on Total Premiums Paid = (GSV factor) x (Total premiums paid^^ plus loading for modal premiums) plus
GSV on CareerStart Additions = (GSV factor of CareerStart Additions (i.e. 30%)) x (attached CareerStart Additions till date of surrender)

Special Surrender Value (SSV):
Special Surrender Value (SSV) shall be payable after completion of the first policy year provided one full year's premium has been received from the date of inception of the policy.

The factors for such SSV will be decided by the Company from time to time. The applicable SSV shall be reviewed annually based on the prevailing yield on 10-Year G-Sec and the underlying experience. Any change in the methodology of determination of Special Surrender Value Factors (SSVF) shall be subject to prior approval from IRDAI.

What Happens If I Stop Paying The Due Premiums?

It is recommended that you pay all premiums for the period selected to be able to enjoy all policy benefits. However, at any stage if you stop paying premiums the following shall be applicable:

If at least the first full years' premium from the date of inception of the policy has not been paid by you, the policy will automatically and immediately lapse on the date of expiry of Grace Period. If a lapsed policy is not reinstated during revival period and before the expiry of policy term, it will automatically stand terminated. No benefit will be paid in case of a lapsed policy on death, survival or surrender.

If at least the first full years' premium has been paid and subsequent premiums are not paid, then the policy shall not lapse. Instead, the policy will be immediately and automatically converted to a reduced paid-up policy at the expiry of the grace period.

Once the policy is in reduced paid-up status, it is eligible for the following benefits:

Death Benefit:
Benefit Payable on Death for Reduced Paid-Up policies = Paid-Up Sum Assured on Death

Paid-Up Sum Assured on Death = (Total Number of Premiums paid /
Total Number of Premiums payable over the Policy Term) x Sum Assured on Death, where Sum Assured on Death is defined above.
The Death Benefit for Reduced paid-up policies at no time shall be less than higher of:

- 105% of Total Premiums Paid^^ plus loading for modal premium till the date of death
- Surrender value payable as on date of death

In case of death of Life Assured due to accident during the policy term, Paid-up Accidental Death Benefit will be payable in addition to Base Death Benefit for Reduced Paid-up policies.

Paid-Up Accidental Death Benefit = (Total Number of Premiums paid /
Total Number of Premiums payable over the policy term) x Accidental Death Benefit, where Accidental Death Benefit is defined above.

Maturity Benefit:

Upon completion of the Policy Term, following benefits will be payable.

1. Paid-up Guaranteed Income (as defined below) payable throughout the Income Period.
2. Paid-up CareerStart Benefit (as defined below) payable at the end of Income Period.

Paid-up Guaranteed Income = (Total Number of Premiums paid / Total Number of Premiums payable over the policy term) x Guaranteed Income, where Guaranteed Income is as defined above.

Paid-up CareerStart Benefit shall be calculated as sum of attached CareerStart Additions till date of policy becoming paid-up plus sum of Paid-up CareerStart Additions attached after policy becomes paid-up.

Paid-up CareerStart Additions = (Total Number of Premiums paid / Total Number of Premiums payable over the policy term) x CareerStart Additions Rate x Total Premiums Paid^^.

CareerStart Additions are defined above.

A Paid-Up policy can also be surrendered at any time. The benefit payable will be in accordance with the benefit payable on surrender as mentioned below.

Policyholder will have five years from the date of first unpaid premium, and before the expiry of the Policy Term to revive the Paid-Up policy by paying all outstanding premiums (with applicable interest).

Once the policy is converted to Reduced Paid-up status, there shall not be any CI benefit available under Health Shield.

At Maturity, the Policyholder/Nominee may take the above benefits as lumpsum. Such lumpsum amount shall be calculated as paid-up Sum Assured on Maturity plus present value of paid-up CareerStart Benefit. In such cases, paid-up Sum Assured on Maturity shall be present value of paid-up Guaranteed Income. The interest rate used for discounting these benefits shall be fixed at 7.50% p.a.

How Do I Revive My Lapsed Policy? (Revival)

The policyholder may revive the policy within five consecutive completed years from the due date of the first unpaid premium (“Revival Period”) and before the expiry of the policy term. The revival will be subject to ‘Board Approved Underwriting Policy’ of the Company and payment of all outstanding premiums (including taxes, if any) with applicable interest, thereon. The interest rate applicable for FY 2026-27 is 9.00% p.a. compounded annually.

The interest will not exceed the yield to maturity on 10-year G-Sec + 200 basis points rounded to nearest 50 basis points. G-Sec rates will be taken from www.fbil.org.in. The interest rate will be reset at the beginning of each Financial Year. Any change in formula used in deriving this interest rate will be subject to prior approval from IRDAI.

Upon revival, the policyholder would be eligible for all benefits in full in line with in-force policy.

In case no revival request is received from the policyholder during the revival period and the policy has not acquired paid-up status, the policy will terminate.

Policy Loan

You can take loan under the policy provided the policy has acquired Surrender Value subject to the below terms and conditions as we may specify from time to time:

1. The maximum amount of loan will be equal to 80% of Surrender Value as on the date of loan subject to the minimum amount of ₹12,000.
2. The loan interest will not exceed the yield to maturity on 10-year G-Sec + 200 bps rounded to nearest 50 bps. G-Sec rates will be taken from www.fbil.org.in. The interest rate will be reset at the beginning of each Financial Year. Any change in formula used in deriving this interest rate will be subject to prior approval from IRDAI, if applicable. The current interest rate used for FY 2026-27 is 9.00% p.a.
3. The policyholder can repay part or full amount of loan and/or loan interest at any time during the policy term.
4. If death, surrender or maturity takes place during the subsistence of loan, then, any loan and/or loan-interest outstanding as on the date of death, as on the date of surrender or as on the date of maturity (as applicable) will be recovered from the benefits payable on death, Surrender Benefit or Maturity Benefit (i.e. Guaranteed Income and CareerStart Benefit) respectively, as applicable.
5. For other than in-force and fully paid-up policies, in case the outstanding loan amount (including Interest) exceeds 95% of the Surrender Value anytime during the policy term, the Company will send an intimation to the Policyholder for repayment of loan/ interest. In the event of non-payment within 30 days after intimation or if premiums are discontinued, the policy shall be terminated by paying any differential amount if any i.e. surrender value less outstanding loan amount (including Interest).
6. For in-force and fully paid-up policies, the policy will not be foreclosed if the outstanding loan amount (including Interest) exceeds the surrender value.
7. The rate of interest shall remain the same for the entire term of the loan under a policy.
