Introduction

As the bread winner of your family you have their dreams to realize and aspirations to fulfil. Hence, it is very important to stay insured, save regularly and invest intelligently towards your life's goals.

Ageas Federal Life Insurance Guaranteed Wealth Plan is a long-term life insurance plan which comes with a component of savings element that assures you of guaranteed returns on your investment. This plan can be used to actualise life's milestones like children's education and/or marriage, going for a holiday, renovation of house, buying your dream car etc.

Above all the plan is simple to understand, easy to acquire and maintain.

Key benefits of the plan

- Flexibility to choose premium paying term & policy term as per your goals
- Get life cover to protect your family for chosen policy term
- Enjoy guaranteed benefits irrespective of market conditions
- Choose to receive your benefits as a lump sum or as regular income basis your need
- Get Tax benefits as per prevailing tax laws

The above listed key benefits of the plan are detailed below to enable better understanding:

1. **Flexibility to choose premium paying term & policy term as per your goals**
   Under the Lumpsum Benefit, you may choose to pay premiums for the first 7 or 10 years of the policy and you get corresponding life cover for 14 or 20 years. For Regular Income Benefit option you pay premiums for the first 7 years of the policy and get life cover for 14 years

2. **Financially secure your family with a life cover for the chosen policy term**
   The plan has a life insurance cover for the chosen policy term of 14 or 20 years. So you can be rest assured that your family's future will be financially secure under all circumstances.

3. **Enjoy guaranteed benefits irrespective of market conditions**
   The benefits of this plan are guaranteed and will be paid out to you irrespective of market volatility.

4. **Choose to receive your benefits as a lump sum or as annual payouts basis your need**
   This plan offers you two options i.e. Lump sum benefit and Regular Income benefit.

5. **You may avail tax benefits**
   Guaranteed Wealth Plan also helps you in getting tax benefit as per prevailing tax laws. Please note that tax laws may change from time to time. Policyholder is advised to consult with a tax advisor for more information.

[5]Please note that tax laws may change from time to time. Consult your tax advisor for determining the Tax benefits applicable to you.

How the plan works?

This plan is devised as a simple savings tool that encourages you to stay insured and save regularly towards your life's goals; and gives you the security of guaranteed returns. It also provides the flexibility to choose to receive your benefits either as a lump sum or as regular income, basis your need.

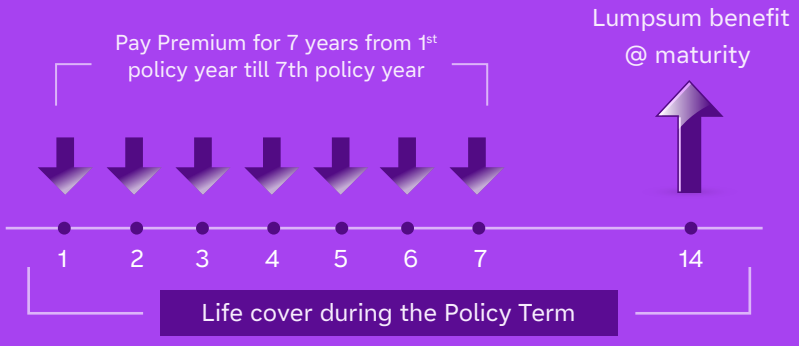

1. You start by choosing the amount that you would want to invest as premium each year
2. You choose the option you would like to invest in i.e.
   a. Lumpsum Benefit
   b. Regular Income Benefit
3. Under Regular Income Benefit Option, the Policy Term available is 14 years and the Premium Payment Term is 7 years. Under Lump Sum Benefit Option, the Policy Terms available are 14 years and 20 years with the corresponding Premium Paying Term of 7 years and 10 years respectively.

The plan comes with 2 options which are as under:

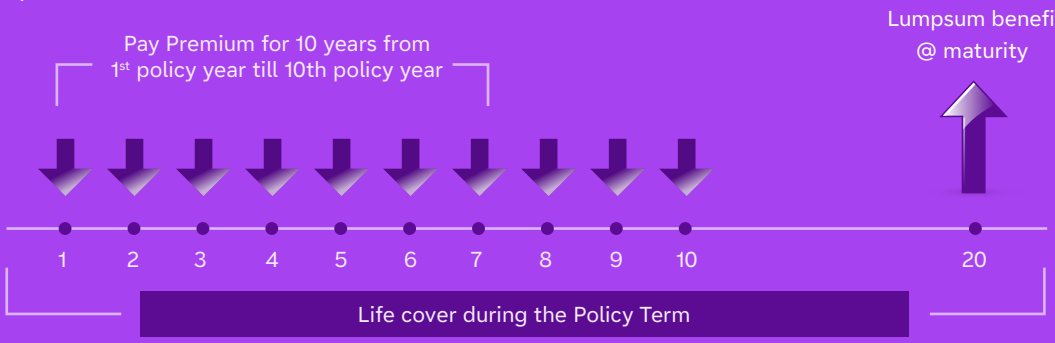

Lumpsum Benefit

Under this, the policyholder is required to pay premium either for the first 7 years or first 10 years. The plan then pays out guaranteed sum assured at corresponding maturity, i.e. the end of the 14th policy year or 20th policy year. The guaranteed sum assured on maturity is expressed as a percentage of the total annualized premiums payable. The insured stays covered for life for the entire term.

PT/PPT: 14/7

PT/PPT: 20/10

Death Benefit

On death of the insured person, provided the policy is in force and all premiums have been paid in full, the beneficiary would be paid the Death Benefit. Once a death claim is paid, the policy will be terminated.

Death Sum Assured is highest of:

- Guaranteed Sum Assured on Maturity (Maturity Sum Assured)[1],
- 10 times of Annualized Premium[2],
- 105% of Total Premiums paid[3] as on the date of death,
- Any absolute amount assured to be paid on death which is Sum assured[4],

Where,

[1]Guaranteed sum assured on maturity is defined under section "Maturity benefit."

[2]Annualized premium shall be the premium amount payable in a year excluding taxes, rider premiums, underwriting extra premiums and loadings for modal premiums.

[3]Total premiums paid means total of all the premiums paid under the base product, excluding any extra premium and taxes, if collected explicitly.

[4]Sum assured is defined as the 10 times the Premiums payable per annum including underwriting loadings, if any, but excluding goods and services tax and cess as applicable, if any.

Death benefit is equal to Death Sum Assured.

Death benefit is available throughout the Policy Term, during and after PPT.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Maturity Benefit

Policyholder will receive Maturity sum assured (MSA) on survival till maturity. This is defined as a percentage of the total annualized premiums payable and depends on the age at entry of the insured and the premium amount. On this payment, the policy shall terminate and all rights, benefits and interests under the policy shall stand extinguished.

Maturity benefit is equal to Maturity Sum Assured.

Maturity Sum Assured = Maturity Factor X Annualized premium X PPT

The Maturity Factors are tabled below for easy reference:

For PPT/PT: 7/14 Year

Age at Entry (Age Last Birthday)	Annualized Premium ≥ Rs. 35,000 & <50,000	Annualized Premium ≥ Rs. 50,000 & <75,000	Annualized Premium ≥ Rs. 75,000 & <1,00,000	Annualized Premium ≥ Rs. 1,00,000

55	177.49%	179.74%	181.49%	182.36%

Maturity factors are expressed as a percentage of Total Annualized Premiums payable.

These are applicable for Lump Sum Benefit Option.

Illustration:

Let us take an example of Mr. Bhargav (a healthy male)*aged 35 years. His family comprises of his wife and a daughter aged 12 years. Bhargav works in a private organization and his wife is a home maker. They are looking out for a plan that will give life cover along with guaranteed returns on their hard-earned income. Bhargav buys Guaranteed Wealth Plan on his own life with an annual premium of Rs.1, 00,000. He pays this amount every year for the first 7 years of his policy. At the end of the 14th policy year, he receives the Maturity Sum Assured of Rs.11,55,840. This additional income supports him in getting his daughter an admission in a reputed university to pursue higher education. In case he dies during the policy term, his nominee will receive the death benefit of Rs. 11,55,840.

*Subject to underwriting guidelines

Surrender Value

The policy shall acquire a surrender value after completion of the first policy year, provided one full year premium has been received.

Surrender Value is higher of Guaranteed Surrender Value and Special Surrender Value.

Guaranteed Surrender Value (GSV) is calculated as:

(Premiums paid till date of surrender, including underwriting loadings, if any x GSV factor for lumpsum benefit)

For PPT/PT: 7/14 Year

Policy Year of Surrender	GSV Factor for lumpsum benefit
1	0%
2	30%
3	35%
4	50%
5	51%
6	52%
7	53%
8	54%
9	61%
10	67%
11	74%
12	81%
13	90%
14	95%

For PPT/PT: 10/20 Year

14	66%
15	71%
16	76%
17	80%
18	85%
19	90%
20	95%

Special Surrender Value (SSV)

The SSV is not guaranteed and may be changed at any time, subject to the necessary approvals as required by IRDAI .

Paid-up value:

The policy shall acquire a Surrender Value after completion of the first policy year, provided one full year premium has been received. After the policy acquires a paid-up value, if the policy holder does not pay any due premium within the grace period, the company will make the policy paid-up with reduced benefits. If the reduced paid up policy is not revived before the end of the revival period of five consecutive complete years the policy would continue as a reduced paid up policy till maturity.

The reduced benefits are calculated using the following formulae:

a) **Maturity Benefit**

Reduced MSA = (Maturity sum assured) X (Number of premiums paid/ Number of premiums payable)

On survival till maturity, reduced MSA will be paid.

b) **Death Benefit**

Reduced Death Benefit = (Death sum assured) X (Number of premiums paid/ Number of premiums payable)

On death during the policy term, reduced Death benefit will be paid out.

The Reduced Death benefit shall be at least 105% of Total Premiums Paid up to the date of death.

c) **Surrender Value**

Surrender Value for a paid-up policy = Maximum {Guaranteed Surrender Value (GSV) for a paid-up policy, Special Surrender Value (SSV) for a paid-up policy}

GSV for a paid up policy = Premiums paid till date of surrender, including underwriting loadings, if any X GSV factor

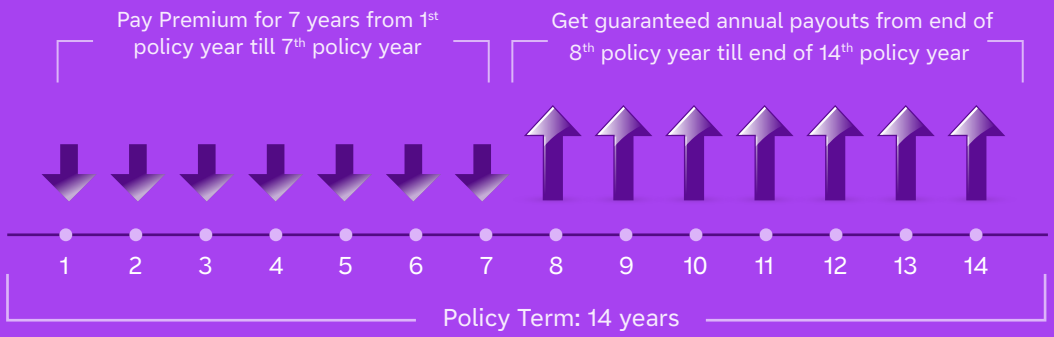

The SSV for a paid-up policy is not guaranteed and may be changed at any time, subject to necessary approvals as required by IRDAI.

Regular Income Benefit

Under this, the policyholder is required to pay premium only for the first 7 years. The plan then pays out guaranteed annual payouts (GAP) starting from the end of 8th year till the end of policy term.

The insured stays covered for life for the entire term of 14 years.

There is no guaranteed sum assured payable on maturity. The last GAP will be paid on survival to maturity.

Life cover during the Policy Term

Guaranteed Annual Payouts

Policyholder will receive Guaranteed Annual Payouts (GAP) from end of 8th year till end of policy term. GAPs are defined as percentage of the annualized premium and depends on the age at entry of the insured and the premium amount. On the payment of last GAP, the policy shall terminate and all rights, benefits and interests under the policy shall stand extinguished.

GAP payments cannot be commuted or taken as a lump sum.

GAP = GAP factor X Annualized Premium

The payout GAP factors are tabled below for easy reference:

Age at Entry (Age Last Birthday)	Annualized Premium ≥ Rs. 35,000 & <50,000	Annualized Premium ≥ Rs. 50,000 & <75,000	Annualized Premium ≥ Rs. 75,000 & <1,00,000	Annualized Premium ≥ Rs. 1,00,000

55	120.79%	122.72%	124.23%	124.98%

GAP factors are expressed as a percentage of Annualized Premium. These are applicable for Regular Income Benefit Option.

Death Benefit

On death of the insured person, provided the policy is in force and all due premiums have been paid in full; the beneficiary would be paid the Death Benefit. Once a death claim is paid, the policy will be terminated.

Death Sum Assured is highest of:

- Guaranteed Sum Assured on maturity (Maturity Sum Assured)[1]
- 10 times of Annualized Premium[2],
- 105% of Total Premiums paid[3] as on the date of death,
- Any absolute amount assured to be paid on death which is Sum assured[4],

Where,

[1]Guaranteed sum assured on maturity is nil.

[2]Annualized premium shall be the premium amount payable in a year excluding taxes, rider premiums, underwriting extra premiums and loadings for modal premiums.

[3]Total premiums paid means total of all the premiums paid under the base product, excluding any extra premium and taxes, if collected explicitly.

[4]Sum assured is defined as the 10 times the Premiums payable per annum including underwriting loadings, if any, but excluding goods and services tax and cess as applicable, if any.

Death benefit is equal to Death Sum Assured.

Death benefit is available throughout the Policy Term, during and after PPT.

Death benefit is paid out irrespective of the amount of GAPs paid till date of death, if any.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Maturity Benefit

There is no maturity benefit under this option. The last GAP is paid on survival till maturity.

Illustration:

Let us take an example of Mr. Akhil (a healthy male)* aged 35 years. His family comprises of his wife and 2 sons aged 10 years and 7 years. Both Akhil and his wife are earning members of the family and are looking out for a plan that will give life cover along with guaranteed returns on their hard-earned income. Akhil buys Guaranteed Wealth Plan on his own life with an annual premium of Rs. 75,000. He pays this amount every year for the first 7 years of his policy. From the end of the 8th policy year, he starts receiving his annual guaranteed payout of Rs. 1,02,330 every year till the 14th and final year of his policy. This additional income supports him for his elder son for higher education. In case he dies during the policy term, his nominee will receive the death benefit of Rs. 7,50,000. This death benefit is paid irrespective of the annual guaranteed payouts that he may have received.

*subject to underwriting guidelines

Surrender Value

The policy shall acquire a surrender value after completion of the first policy year, provided one full year premium has been received.

Surrender Value is higher of Guaranteed Surrender Value and Special Surrender Value.

Guaranteed Surrender Value (GSV) is calculated as:

Max [{(Premiums paid till date of surrender, including underwriting loadings, if any x GSV factor for regular income benefit option)- Sum of GAPs already paid, if any}, 0]

Policy Year of Surrender	GSV Factor for regular income benefit
1	0%
2	30%
3	35%
4	50%
5	51%
6	52%
7	53%
8	54%
9	61%
10	67%
11	74%
12	81%
13	90%
14	95%

Special Surrender Value (SSV)

The SSV is not guaranteed and may be changed at any time, subject to necessary approvals as required by IRDAI.

Paid-up value

The policy shall acquire a Surrender Value after completion of the first policy year, provided one full year premium has been received. After the policy acquires a paid-up value, if the policyholder does not pay any premium which is due within the grace period, the company will make the policy paid-up with reduced benefits. If the reduced paid up policy is not revived before the end of the revival period of five consecutive complete years the policy would continue as a reduced paid up policy till maturity.

The reduced benefits are calculated using the following formulae:

a) **Death Benefit**

Reduced Death Benefit = (Death sum assured) X (Number of premiums paid/ Number of premiums payable)

On death during the policy term, reduced Death benefit will be paid out.

The Reduced Death benefit shall be at least 105% of Total Premiums Paid up to the date of death.

b) **Survival Benefit**

Reduced GAP = GAP X (Number of premiums paid/Total number of premiums payable)

On survival of the life insured till each of the guaranteed annual payout dates, reduced GAP will be paid.

c) **Surrender Value**

Surrender Value for a paid-up policy = Maximum {Guaranteed Surrender Value (GSV) for a paid-up policy, Special Surrender Value (SSV) for a paid-up policy}

GSV for a paid up policy = Max [{(Premiums paid till date of surrender, including underwriting loadings, if any x GSV factor for regular income benefit option) – Sum of GAPs already paid, if any}, 0]

The SSV for a paid-up policy is not guaranteed and may be changed at any time, subject to necessary approvals as required by IRDAI.

Eligibility Criteria

Age at entry of life insured (last birthday)	**Min** **Max**	10 years[$] 55 years		
Age at maturity of the life insured (last birthday)	**Max**	PPT (in years)	PT (in years)	Maximum Maturity Age
		7	14	69 years
		10	20	75 years
Premium	**Min**	Rs.35,000/-		
	Max	No limit		
Premium Frequency (Mode)	**Fixed**	Yearly		
Premium payment period	**Fixed**	Option	PPT	PT
		Regular Income benefit option	7	14
		Lump Sum Benefit option	7	14
			10	20
Policy Term	**Fixed**	14 years and 20 years		
Payout Period (Applicable only for Regular Income Benefit)	**Fixed**	7 years		

[$]Policies on lives of minors can be taken only by parents / grand-parents / legal guardian.

Other features:

Revival

A policy which has lapsed or has been made paid-up may be revived subject to the following conditions:

a) An application for revival is made within five consecutive complete years from the due date of the first unpaid premium

b) The insured person must furnish us with satisfactory evidence of health and satisfy other requirements according to board approved underwriting policies at that time.

c) The arrears of premium together with interest, at such rate as decided by the Company from time to time, is received along with the revival application. Interest rate shall be set as quarterly equivalent of (2% + annualized yield on 10 year Government security). Annualized Yield on 10 year Government security is sourced through FBIL. Any change in this formula and basis to set interest rates shall be made with necessary approvals as required by IRDAI (The current rate of interest applicable from 1st August, 2024 is 9.20% per annum basis 10 years G-sec rate as on 28th June, 2024). Interest rate shall be compounded quarterly. The frequency of reviewing revival interest rate is 6 months. The same will be reset every year on 1st February and 1st August.

When a policy is revived after payment of all due premiums together with interest, the policy is entitled to receive all benefits.

If you make an application for revival after your Guaranteed Annual Payouts have commenced, then policy will be revived after payment of all due premiums together with interest, all Benefits will be reinstated as shown in the schedule. Along with this, the balance of the previous Guaranteed Annual Payouts will be paid.

If lapsed policy is not revived within five consecutive complete years from the due date of the first unpaid premium and where the policy has not acquired a paid up value, the premiums already received by us are forfeited and the policy cannot be revived thereafter.

If the reduced paid up policy is not revived before the end of the revival period of five consecutive complete years, the policy would continue as a reduced paid up policy till maturity.

Alterations to sum assured / premium

No change in the sum assured / premium amount is allowed during the term of the policy.

Grace period

Grace period is effective from the date of the first unpaid premium. The plan allows a grace period of 30 days from the due date. The policy will remain in force during the grace period and benefits under this policy will be payable.

In case of death during the grace period, before the premium due at that time is paid, the premium due shall be deducted without any interest from the death benefit payable.

If premium is not paid beyond the grace period, the policy shall lapse and have no further value, except if it has acquired any paid-up value.

Lapse

In case of non-payment of due premiums within the grace period for first full policy year, the policy would lapse. No benefits are payable under a lapsed policy.

After one full year's premium have been received, if any due premium is not received within the grace period from the premium due date, the policy would acquire a paid-up value with reduced benefits.

Free Look Period

You are entitled to a free look period of 30 days beginning from the date of receipt of the policy document (whether received electronically or otherwise), to review the terms and conditions of the policy. In case you do not agree to any of the policy terms and conditions, or otherwise and have not made any claim, you have the option to return the policy to us for cancellation by communicating the same in writing stating the reasons for cancellation. We will refund you the premium paid after deducting the proportionate risk premium for the period of cover provided and the expenses, if any, incurred by us in respect of medical examination and stamp duty charges. All the benefits under the policy will stand extinguished immediately on the cancellation of the Policy under the free look.

Assignment and Nomination:

Assignment and Nomination will be allowed as per provisions of section 38 & 39 of the Insurance Act, 1938 as amended from time to time. For further information on Section 38 and 39, you may contact your intermediary.

Loans

You can avail a loan on your policy only after it acquires a surrender value. The loan that you can avail will be from a minimum of Rs.5, 000 and limited to 85% of the guaranteed surrender value at the time of application, subject to terms and conditions specified by Ageas Federal from time to time. The current rate of interest applicable from, 1st August, 2024 is 9.20% per annum basis 10 years G-sec rate as on, 28th June, 2024. The frequency of reviewing loan interest rate is every 6 months.

The Interest rate shall be compounded quarterly.

Renewal Premium in advance:

Collection of renewal premium in advance shall be allowed within the same financial year for the premium due in that financial year. Provided, the premium due in one financial year may be collected in advance in earlier financial year for a maximum period of three months in advance of the due date of the premium.

The renewal premium so collected in advance shall only be adjusted on the due date of the premium.

Suicide exclusion

In case of death due to suicide within 12 months from the date of commencement of risk under the policy or from the date of revival of the policy, as applicable, the nominee or beneficiary of the policyholder shall be entitled to 80% of the total premiums paid till the date of death or the surrender value available as on the date of death whichever is higher, provided the policy is in force.

Total Premiums Paid means total of all the premiums paid under the base product, excluding any extra premium and taxes, if collected explicitly.

Goods and services tax and stamp duty

Good and services tax and other levies, as applicable, will be levied as per the extant laws. The current GST rate is 0%.

Statutory Information

Prohibition of rebate: The Insurance Act, 1938 prohibits an agent or any other person from passing any portion of his commission to the customer, whether as incentive or rebate of premium. Section 41 of the Act states:

1) No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the policy, nor shall any person taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the insurer.

2) Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees.
