Loans

You can avail a loan on your policy only after it acquires a Surrender Value. The loan that you can avail will be from a minimum of Rs. 5,000 and limited to 75% of the Guaranteed Surrender Value. The current rate of interest applicable from 1st August, 2024 is 9.20% per annum basis 10 years G-sec rate as on 28th June, 2024. The frequency of reviewing loan interest rate is every 6 months. Interest charged on policy loans is compounded annually.

In the event, where outstanding loan amount plus accrued interest is higher than Surrender Value, the policy shall be foreclosed, after giving intimation and reasonable opportunity to the policyholder to continue the policy. The company shall be entitled to apply the surrender value towards the payment of total outstanding amount (outstanding loan amount + accrued interest). However, for premium paying and fully paid up policies, the company will not do foreclosure.

Survival and Maturity Benefits shall be first used to offset the loan amount and accrued interest. The balance shall be paid out to the policyholder.

In the event of any claim, if the amount of loan or any portion thereof remains outstanding; the company will be entitled to deduct the outstanding loan amount and accrued interest up to the date of claim from the policy proceeds before settling the claim.
