5 Pay	Rs 2,50,000
Regular Pay	Rs 2,50,000 for all modes

Step 2: Choose your Policy Term and Premium Payment Term
You have the option to choose Policy Term basis your need i.e. 10 years or 15 to 25 years. The Premium Payment Term for a 10 year Policy Term is 5 years while Premium Payment Term is same as Policy Term where the Policy Term varies from 15 to 25 years. The death benefit cover multiple under this product are defined are: 7 & 10.

Sum assured will be calculated by multiplying the chosen "death benefit cover multiple" with the "Annualised Premium".

In case of death of the Life Insured anytime during the Policy Term, following shall be payable:

1. **Lump sum Payout on death** - Higher of [Sum Assured or 105% of the total premiums paid till the date of death or (0.5 times Policy Term times Annualised Premium)] shall be payable immediately on death.
"Sum assured on death" means an absolute amount of benefit which is guaranteed to become payable on death of the life assured in accordance with the terms and conditions of the policy.

'Sum assured (SA)' is equal to Sum assured on death.

2. **Family Income Benefit (FIB)** - A Family Income Benefit equal to 10% of the Sum Assured will be paid on each Policy anniversary following or coinciding with the date of death of the Life Insured till the end of the Policy Term, but not exceeding 10 such installments.

Please note that irrespective of the balance Policy Term left over, a minimum of three installments each equal to 10% of Sum Assured is guaranteed to be paid in all circumstances in case of death of the Life Insured during the Policy Term. Please further note in case of death of Life Insured with less than three Policy anniversary left till the end of Policy Term, any excess installments to meet the minimum requirement of three installments will be paid by the Company on the date of maturity of the plan.

For example – For a policy with Policy Term of 10 years, if the policyholder dies in 9th policy year, then 1 installment equal to 10% of Sum Assured will be paid on 9th Policy Anniversary and remaining 2 installments each equal to 10% of Sum Assured will be paid on the date of maturity of the plan.

3. **Funding of Premium (FOP)** - Under this Benefit, the Company will fund all future outstanding premiums as and when due under the Policy and the Fund Value will be paid on maturity.
The Policy will continue even after the death of the Life Insured till the end of the Policy Term. All the benefits under the Policy shall be payable to the beneficiary.

The Rising India Manufacturing Fund & Flexi Cap Fund may also use equity derivatives for hedging, efficient portfolio management, and optimizing returns, in line with IRDAI regulations and the fund's risk management framework. Derivative Exposure limits would be governed by the Board Approved Hedging Policy (for Equity Derivatives) and will adhere to the regulatory limits/framework prescribed by IRDAI.

Let's understand through different illustrations in below section

Equity Derivative for Hedging Purposes:
While creating a diversified portfolio helps reduce stock-specific risks, to protect portfolio returns from systematic risks, the funds may resort to hedging through Index/Stock Futures or Index/Stock Options as stipulated by IRDAI. This helps reduce market risk and volatility for policyholders. We will be complying to the exposure limits as prescribed by IRDAI guidelines.

Illustration of Futures
Assume a portfolio of ₹50,00,000. If we anticipate volatility in the markets, we may hedge the portfolio with Index Futures as per IRDAI guidelines. For example, we hedge the portfolio by selling Index Futures of Nifty MidCap.
-Let's assume Current Index Level is ₹15,000
•Lot Size: 140
•Value of 1 Lot:
₹15,000 × 140 = ₹21,00,000

Since we are holding a long position in the stock portfolio, we will take an opposite position to hedge it.
•Sell 1 lot of Nifty MidCap Index Futures worth ₹21,00,000
•Remaining unhedged portion = ₹50,00,000 – ₹21,00,000 = ₹29,00,000

-If Market Falls by 10%
Loss from Portfolio:
10% of ₹50,00,000 = ₹5,00,000

Profit from Short Position in Index Futures:

-Futures also fall by 10%
Initial Futures Value = ₹21,00,000

New Futures Value = ₹18,90,000
Gain = ₹21,00,000 – ₹18,90,000 = ₹2,10,000

Overall Loss Reduced To:
₹5,00,000 – ₹2,10,000 = ₹2,90,000
This was possible because the portfolio was carefully hedged with Index Futures before the market crash and Similar illustration applies for selling stock futures.

Illustration of Stock Options
Assume a scenario where we are long on a particular stock "B" in the cash market.
•Let's assume the current Price to be ₹250
•Quantity: 8,000 shares
•Portfolio Value: ₹20,00,000
•Put Option Premium: ₹6 per share
Due to uncertainty, we expect adverse impact on the stock price. As per IRDAI guidelines, we can buy a Put Option of that stock in the derivatives market.
Case 1: Stock Price Moves Up to ₹270
- Cash Market Profit: ₹20 per share = ₹1,60,000
- Loss on Put Premium: ₹48,000
- Net Profit: ₹1,12,000

Case 2: Stock Price Falls to ₹230
- Cash Market Loss: ₹1,60,000
- Put Option Gain: ₹1,60,000 – ₹48,000 = ₹1,12,000
- Net Loss: ₹48,000 only

Case 3: Stock Price Remains ₹250
- Cash Market Impact: ₹0
- Premium Loss: ₹48,000
- Net Loss: ₹48,000

Similar illustrations apply for selling an Index Option.

E.g.:

Policy Month 11: 1/ (13-11) = 1/2 of the Units to be switched

Dynamic Fund Allocation

Dynamic Fund Allocation option is an investment strategy which in early part of your Policy Term invests in equity oriented funds and as your Policy Term progresses it shifts the fund allocation towards more conservative funds. You can opt for Dynamic Fund Allocation option only at the inception of Policy. Under this option, assets under management shall be maintained amongst Growth Super Fund and Secure Fund in a pre-defined proportion that changes depending upon the years left to maturity as per the matrix below. Switching of existing Fund Value shall happen on the Policy Anniversary and Allocation of premium received amongst the Funds shall happen on the date of receipt of such premium or premium due date, whichever is later, in the proportion mentioned in the table below. You do not have an option to Redirect Premiums or effect Unit Switches during the period this option is in force. You may opt out of the "Dynamic Fund Allocation" option anytime during the Policy Term, which will then be effective from the next Policy Anniversary. Once opted out, "Dynamic Fund Allocation" cannot be opted again. However, after opting out of the Dynamic Fund Allocation option, you may exercise Switches or Premium Redirection options to manage your Funds and maintain balance between risk & returns as per your risk appetite.

Full Disclosure & Incontestability:
We draw your attention to Section 45 and statutory warning under Section 41 of the Insurance Act 1938 as amended from time to time – which reads as follows:

Section 45 of the insurance Act, 1938 as amended from time to time states that:

No policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the policy, i.e. from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy whichever is later.

A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground of fraud:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees of the insured the grounds and materials on which such decisions are based.

Explanation I – For the purposes of this sub-section, the expression "fraud" means any of the following acts committed by the insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance policy:
a) the suggestion, as a fact of that which is not true and which the insured does not believe to be true;
b) the active concealment of fact by the insured having knowledge or belief of the fact;
c) any other act fitted to deceive; and
d) any such act or omission as the law specially declares to be fraudulent.

Explanation II – Mere silence as to facts likely to affect the assessment of the risk by the insurer is not fraud, unless the circumstances of the case are such that regard being had to them, it is the duty of the insured or his agent, keeping silence to speak, or unless his silence is, in itself, equivalent to speak.

Notwithstanding anything contained in sub-section (2) no insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement of or suppression of a material fact was true to the best of his knowledge and belief or that such mis-statement of or suppression of a material fact are within the knowledge of the insurer:

Provided that in case of fraud, the onus of disproving lies upon the beneficiaries, in case the member is not alive.

Explanation – A person who solicits and negotiates a contract of insurance shall be deemed for the purpose of the formation of the contract, to be the agent of the insurer.
A policy of the life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees of the insured the grounds and material on which such decision to repudiate the policy of life insurance is based:

Provided further that in case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the ground of fraud, the premiums collected on the policy till the date of repudiation shall be paid to the insured or the legal representatives or nominees of the insured within a period of ninety days from the date of such repudiation

Explanation – For the purposes of this sub-section, the mis-statement of or suppression of fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer, the onus is on the insurer to show that had the insurer been aware of the said fact no life insurance policy would have been issued to the insured.

Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

Prohibition of Rebates: Section 41 of the Insurance Act, 1938 as amended from time to time states:

No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the policy, nor shall any person taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the insurer:

Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees.

Nomination
Nomination shall be applicable in accordance with provisions of Section 39 of the Insurance Act 1938 respectively, as amended from time to time.
