Death Benefit (Applicable to all Income Options)

In case of death of the Life Assured during the policy term, when the policy is in force and all due premiums have been paid, the death benefit will be payable, and the policy will terminate.

Death Benefit will be Highest of

- Sum Assured on Death (SAD)
- 105% of Total Premiums Paid (TPP) till the date of death
- Surrender value as on the date of death

where Sum Assured on Death is:

For upto age 50 years – 7 or 10 times of Annualized Premium

For age 51 years and above- 5 times of Annualized Premium

Where, Annualized Premium shall be the premium amount payable in a year, excluding the taxes, rider premiums, underwriting extra premiums and loadings for modal premiums.

Where, Total premiums paid means total of all the premiums paid under the base product, excluding any extra premium and taxes, if collected explicitly

The death benefit defined above will be paid either as lump sum amount or in monthly instalments over the period of 5 years as opted by the policyholder/nominee at any time during policy period / on death of Life Assured.

In case of instalment payment of death benefit, the instalment benefit amount will be calculated as dividing lump sum amount (say, S) by annuity factor (i.e. a(n)(12)) i.e. S/a(n)(12) where n is the instalment period of 5 years. The interest rate used to determine annuity factor is {5-year G-Sec rate less 2.00%, rounded down to the nearest 25 bps}, where the 5-year G-Sec is at the beginning of the financial year. The applicable interest rate for FY 24-25 is 5% p.a. (i.e. ~7.18% (5-year G-Sec rate) less 2.00%).

The annuity factor defined above will not be changed once the instalment payment starts.

4. Are there any additional benefit features in IndiaFirst Life Assured Income for Milestones Plan?

Save the Date Feature

In case the Income payment frequency is chosen as Annual, then at the time of purchase you will have an option to receive the survival benefit on any one date succeeding the due date of first income to coincide with any Special Date as per your choice instead of policy anniversary.

This Special Date can be any date that falls within 365 days after first income due date, such as spouse's birthday, parents' anniversary, child's birthday et cetera. All survival benefit payouts shall be made on the chosen date. It can be deferred but not advanced.

In such a case, the survival benefits applicable for the policy year when it is due, would be increased for the deferment period, i.e., the period between the policy anniversary and the Special Date, by accumulating the benefit at an interest rate of 3.0% p.a. compounding monthly. Any change in Interest rate will be subject to IRDAI approval. However, the last instalment due on end of the policy term shall be paid on the date of Maturity only, and not on Special Date.

Save the Date option can be chosen only at the time of Inception of the policy. If this option is chosen, then you won't be able to change the Income payment frequency throughout the policy term, nor change the Special Date in the future.

Discount on Advance premium (Renewal)

Collection of renewal premium in advance is allowed within the same financial year for the premium due in that financial year. Provided, the premium due in one financial year may be collected in advance in earlier financial year for a maximum period of three months in advance of the due date of the premium. No discount will be offered if premium is paid within one month prior to premium due date. The discount rate applicable for the quarter will be calculated on 5-year G-Sec bond yield (rounded to nearest 5 bps) as at beginning of the quarter. The same discount rate will be applicable to all the advance premiums being paid by the policyholder during that quarter. Any change in the said methodology for the calculation of discount on advance premium is subject to the approval by the authority. The discount rate will be calculated from advance premium paid date to premium payment due date (in complete months).

Life Cover Continuance Benefit

Full death benefit will remain in force for a period of one year (Life Cover Continuance period) from the date of first unpaid premium provided the first 2 policy year's premium has been paid in full.

If due premium(s) is not paid within this period, then policy will be converted to paid-up status.

At the end of the life cover continuance period, the policyholder will have the following options to exercise.

- Pay all the due premiums with interest as applicable and revive the policy.
- Pay one full annual premium with interest (as applicable to revival) and extend the life cover continuance benefit period.
- Not pay due premium and hence continue the policy with reduced paid-up benefits.

Advance Income

At any time during the income benefit period, the policyholder shall have a flexibility to receive the income in advance, which shall be the income benefit as defined above discounted at the rate of 8.5% p.a.

This provision is applicable only for annual income frequency policies and should be placed at least one month before the completion of policy year.

5. Are there any additional benefits for higher premium/Sum assured policies in IndiaFirst Life Assured Income for Milestones Plan?

We will pay enhanced Base Income if higher Annualized Premium is chosen by you. The Annualized Premium bands are - 48,000 - 99,999 | 1,00,000 -2,49,999 | 2,50,000 – 4,99,999 | 5,00,000 – 24,99,999 |24,99,999 and above

If you don't pay the due premium during the grace period, then on expiry of the grace period, the Policy shall Lapse, if less than one full year premium has been paid and all benefits under the policy, including the insurance cover, shall cease and no benefits shall be payable, however, you will have the option to revive the Policy within 5 years from the due date of first unpaid premium.

After Acquiring the Paid-Up Value

In case of non-payment of premium after expiry of grace period from the date of first unpaid premium after completion of first policy year provided one full year premium has been paid and subsequent due premium has not been paid, the policy will acquire paid-up value provided at least one full years' premium has been paid.

Note:

- A Reduced Paid-Up policy can be revived (to the original benefits) within five years from the date of first unpaid Premium subject to the conditions.
- If policy in Reduced Paid Up mode is not revived during the revival period, it will continue in the reduced paid-up mode until maturity or death or surrender of the policy.
- In any case the Reduced Paid-up Sum Assured on death or Reduced Paid-up Sum Assured on Maturity including the paid-up benefits, income benefits paid as mentioned below shall not be less than the total premiums paid under this policy.

The adjusted survival benefit is further floored to 10% of paid-up regular income

[

Where,

Paid-up Regular Income is

(Regular Income) * (Total numbers of premiums paid) / (Total Number of premiums payable)

Maturity Benefit under the Reduced Paid-up policy:

Paid-up Sum Assured on Maturity is

Sum Assured on Maturity * (Total numbers of premiums paid) / (Total Number of premiums payable)

The total benefits paid to a reduced paid-up policyholder in case of death or in case of survival (which includes survival benefits and maturity benefits) shall not be less than the Total Premiums Paid (TPP) under the policy

8. What are your options to revive the policy?

You may revive your Policy within 5 years from the due date of first unpaid premium but before the Maturity Date by:

i. submitting a written request for revival of the Policy.

ii. paying all unpaid due Premiums along with interest; and

iii. providing a declaration of good health and undergoing a medical examination at your own cost, if needed.

In case of revival of a lapsed policy, all the Survival Benefits payouts as applicable and due while the policy was in lapsed status shall be paid out as lump sum without any interest.

In case of revival of a paid-up policy, all the Survival Benefit payouts as applicable and due for an In-force policy minus any paid-up Survival Benefit payouts already paid while the policy was in Paid-Up status, shall be paid out as a lump sum without any interest.

The amount payable on surrender will be higher of Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV).

The Guaranteed Surrender Value (GSV) will be

GSV = GSV factor * Total Premiums Paid

Less

Sum of all Survival Benefits already paid up to the date of surrender.

GSV factors are dependent upon policy year of surrender and policy term. GSV factors are attached in Annexure A

Special Surrender Value (SSV) is acquired, if you have paid full Premiums for the first policy year provided one full year premium has been received.

The Special Surrender Value will be calculated as below:

Expected present value of paid-up death benefit plus Expected present value of paid-up survival benefit plus Expected present value of paid-up maturity benefit

The basis of calculation of SSV factors are as follows:

Interest Rate: 7.68% p.a.

Interest rate is derived using the following approach:

7.68% = 7.18% [(1+7.05%/2)2 -1] plus spread of 50 bps

where 7.05% p.a. is the 10 year G-sec rate (convertible half yearly) as at the end of the financial year ending 31st March 2024.

Mortality: 90% of Indian Assured Lives Mortality (2012-14) Ultimate with mortality improvement of 2% p.a.

13. Can I get a loan in this policy?

- You can avail a loan amount upto 80% of the acquired surrender Value, if any. The Minimum Loan amount should be Rs 25000
- For in-force and fully paid-up policies, if the outstanding loan along with interest exceeds 90% of the surrender value, company will send a notice to the policy holder to repay the loan partially or completely. If loan is not repaid subsequent to receipt of the notice then we will adjust the outstanding loan along with interest before any payment of benefits. After recovering the outstanding loan along with interest, remaining benefit, if any, will be payable.
- For other than in-force and fully paid-up policies, as and when the outstanding loan along with interest exceeds the surrender value for paid-up cases, company will send a notice to the policy holder to repay the loan partially or completely. If loan is not repaid within a stipulated period, the policy will be compulsorily surrendered and the outstanding loan along with interest will be recovered from the surrender proceeds or paid-up value.
- The basis used for the calculation of interest rate on loan is 10-year G-Sec rate as at the end of last financial year plus the absolute margin of 250 basis points rounded up to the nearest 50 basis points. The derived interest rate will be applicable in the succeeding financial year. Currently, the interest rate on loan for FY 2024-25 is 10.00% p.a. (simple). It is arrived at by adding a margin of 250 basis points on the effective annual 10-year G-Sec and rounding up to the nearest 50 basis points (10.00% ~ 7.18% + 2.50%).
