HOW DOES SMART GROWTH PLAN WORK?

You can personalise your Smart Growth Plan as per your requirements by following these simple steps:

Step 1	**Choose the premium amount and premium paying frequency that you wish to pay**
Step 2	**Choose the Premium Paying Term for which you will pay the Premium**
Step 3	**Choose the Policy Term for which you wish to remain covered**
Step 4	**Choose the Death Benefit option**
Step 4	**Choose from the available investment strategies /funds basis your risk appetite**

Based on the premium amount and policy term you choose, your Death Sum Assured will be determined. Your premium shall be allocated as per the strategy /fund(s), which you have selected and in the proportion you specify after deducting the applicable charges.

WHAT ARE THE KEY BENEFITS OF SMART GROWTH PLAN?

Maturity Benefit

Upon survival of Life Insured till the date of Maturity, the Fund value including Guaranteed Loyalty Additions as on date of maturity is paid, provided policy is in force. Once the Maturity Benefit is paid out, the plan terminates.

Death Benefit

In case of death of the life insured during the policy term provided the policy is in-force, the Death Benefit as per the option chosen at inception will be paid to the beneficiary and the policy will terminate.

Option 1 - Prime:

The Death Benefit paid is the highest among the following:

- Sum Assured on Death (Death Sum Assured)[1], or
- Fund value, or
- 105% of the total Premiums paid up to the date of occurrence of death.

Reduction in Death Benefit following a partial withdrawal

The minimum Death Benefit is 105% of the Total Premiums paid till the date of occurrence of death. Mortality Charge shall be calculated corresponding to the applicable Sum at Risk.

Death Sum Assured shall be reduced to the extent of partial withdrawals made during the two year period immediately preceding the death of the life assured. Mortality Charge shall be calculated corresponding to the applicable Sum at Risk.

Option 2 - Plus:

The Death Benefit paid is higher of:

- Sum Assured on Death (Death Sum Assured)1 plus Fund value, or
- 105% of the total Premiums paid up to the date of occurrence of death

[1]Sum Assured on Death (Death Sum Assured) for the plan is higher of:

- 10 times the Annualized Premium, or
- 0.5 X PT X Annualized Premium

Annualized Premium means the premium amount payable in a year excluding taxes, rider premiums and underwriting extra premium on riders, if any.

Total premiums paid means total of all the premiums received under the base product including top-ups premium paid, if any.

In case of death of Insured Person when the policy is in discontinued Policy Fund, Discontinued Policy Fund Value will be payable as Death Benefit.

The minimum Death Benefit is 105% of the Total Premiums paid till the date of occurrence of death. Mortality Charge shall be calculated corresponding to the applicable Sum at Risk.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Guaranteed Loyalty Additions

Guaranteed Loyalty Additions help increase your fund value so stay committed and earn Guaranteed Loyalty Additions!

Guaranteed Loyalty Additions will be 0.5% of the average fund value over the last 36 months preceding the Loyalty Addition allocation date. These Guaranteed loyalty additions are credited to your policy at the end of the 10th policy year and at the end of every 5 years thereafter including the last policy year. If you have invested in multiple funds the Guaranteed loyalty additions will be added to each fund in the same proportion as the fund value in each fund bears to the total fund value. Guaranteed Loyalty additions will get accrued to the policy as and when due including during the revival period and while the policy is in paid-up status.

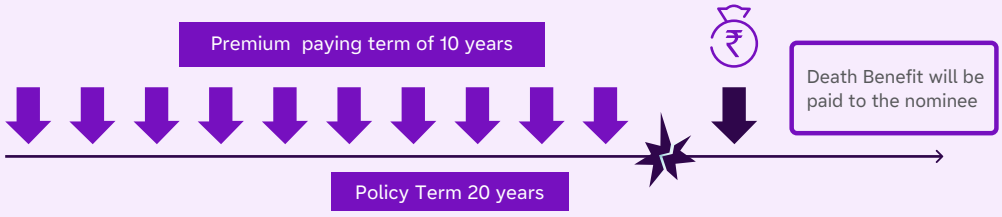

Let's understand with an example

35-years old Kedar (healthy male) is a civil engineer who lives with his wife and 2 year old son Devesh. He is a regular investor in stock market and understands the market vulnerabilities. He therefore, wants to buy a plan which offers dual benefit of life cover benefit that will give his family an assured amount in case of an unfortunate event as well as market linked returns.

He buys Smart Growth Plan (Option 2 – Plus) for a policy term of 20 years. He pays an annual premium of ₹50,000 for 10 years for which the sum assured is ₹5,00,000. The benefits under the plan will be as follows:

Death Benefit

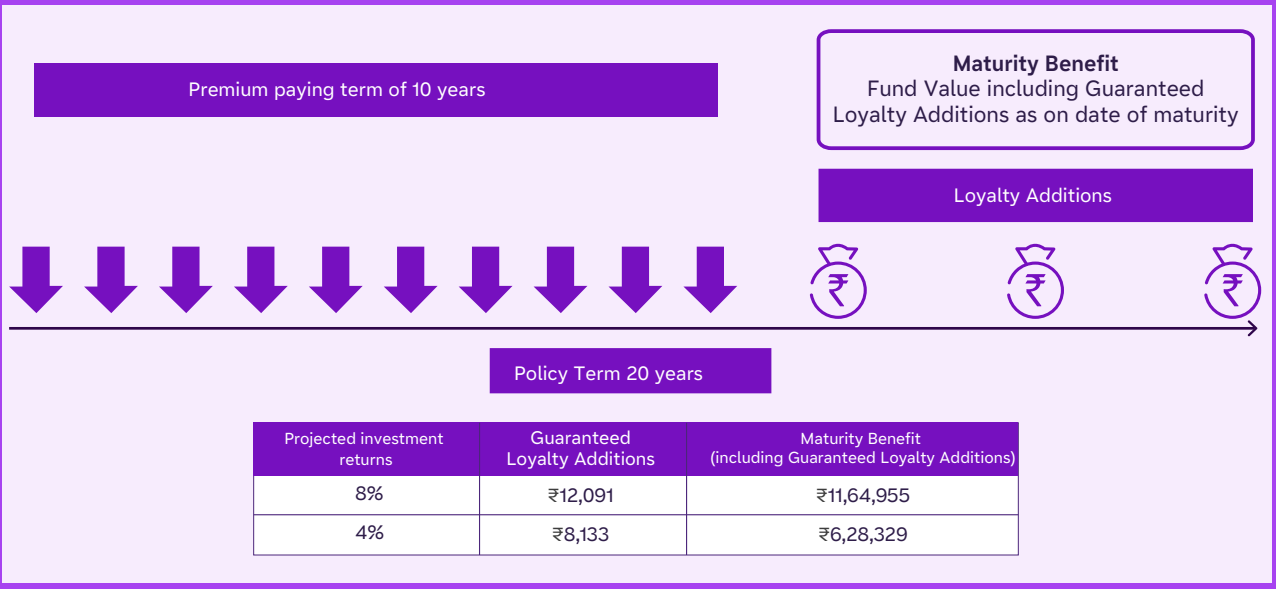

In case of unfortunate death at the end 12th policy year, Kedar's nominee will receive the Death Benefit, as per the table given below:

Projected investment returns	Guaranteed Loyalty Additions	Death Benefit (including Guaranteed Loyalty Additions)
8%	₹2,756	₹12,26,527
4%	₹2,293	₹10,40,878

Maturity Benefit

On survival till the maturity date, Kedar will receive the maturity benefit, as per the table given below:

Projected investment returns	Guaranteed Loyalty Additions	Maturity Benefit (including Guaranteed Loyalty Additions)
8%	₹12,091	₹11,64,955
4%	₹8,133	₹6,28,329

This illustration is for a healthy 35 years old healthy male. Fund allocation is 100% in Equity Growth Fund. The above are illustrative values net of all charges, Goods & Services tax and cess as applicable. The benefit illustration is based on projected gross investment rates of returns at 4% and 8% respectively. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back as the value of your policy is dependent on a number of factors including future investment performance.

WHAT ARE THE OTHER BENEFITS?

Smart Growth Plan offers you complete flexibility, whether it's, managing your investment, liquidity benefits or redeeming the maturity value. Read along to know these benefits in detail.

Use Partial Withdrawal facility after 5 years in case of an emergency

In case of an emergency requirement of funds, you are allowed to make partial withdrawals at any time only after completion of lock-in period. The following conditions apply for such withdrawals:

- The total amount being withdrawn in any policy year is not more than 20% of the Fund Value as at the beginning of that policy year.
- The Partial withdrawals will not be allowed which would result in termination of a contract.
- If the fund value after partial withdrawals falls below one annualized premium either because of a charge or due to a fall in NAV, the policy will continue whilst the fund value remains positive.
- The minimum amount of any partial withdrawal is Rs. 10,000 and the Fund Value after the partial withdrawal should not be less than one annualised premium.
- We will cancel units from the unit-linked funds to the value of each withdrawal according to the proportions that you specifiy. The minimum Death Benefit is 105% of the Total Premiums paid till the date of death. Mortality Charge shall be calculated corresponding to the applicable Sum at Risk.
- In the case of child policies, partial withdrawals shall not be allowed until the minor life insured attains majority i.e. on or after attainment of age 18.
- In case of Option 1 – Prime, Death Sum Assured shall be reduced to the extent of partial withdrawals made during the two year period immediately preceding the death of the life assured. Mortality Charge would be reduced corresponding to the reduced Sum at Risk.
- There is no partial withdrawal charge. Units equivalent to the value of each withdrawal are cancelled from the Unit Linked Funds according to the proportions in which the Policyholder has instructed.

Surrender

1 Discontinuance of policy during the lock-in period:

If you surrender the policy during lock-in period, the unit fund value after deducting applicable discontinuance charges shall be credited to the discontinued policy fund and risk cover and rider cover, if any, shall cease. The proceeds of the discontinued policy fund shall become payable at the end of the lock-in period.

2 Discontinuance of policy after the lock-in period:

In case you surrender the policy after lock-in period, the surrender value shall be at least equal to the unit fund value as on the date of surrender.

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium, the policy shall be converted into a reduced paid-up policy with the paid-up sum assured i.e. original sum assured multiplied by a ratio of "total period for which premiums have already been paid" to the "maximum period for which premiums were originally payable". The policy shall continue to be in reduced paid-up status without rider cover, if any. All charges as per terms and conditions of the policy shall be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid-up sum assured only. In case the policyholder does not surrender or revive the policy within the revival period, the policy will continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be paid to the policyholder and the policy shall terminate. However, once the policy is surrendered, it cannot be revived.

Opt for maturity proceeds through Settlement Option

You may choose to withdraw your maturity benefit in periodic instalments over a period of maximum of 5 years from the maturity date instead of redeeming the entire amount on the maturity date itself. During this period, your Fund Value will continue to participate in the performance of unit-linked funds as chosen by you and you will also bear the associated investment risks. During the settlement period, in case of death of the life assured, higher of available Fund Value or 105% of Total Premiums paid till the date of death shall be paid and applicable mortality charges shall be deducted. Further, the policy shall participate in the performance of funds and investment risk is borne by the recipient of Maturity Benefit. Throughout the settlement period, funds shall continue to remain invested as on maturity date, unless switching has been exercised by the policyholder. FMC shall be continued to be levied. No other charges shall be levied. No Guaranteed Loyalty Additions shall be added during this period. Switching shall be allowed during this period. Partial withdrawal shall not be allowed during this period. The recipient of Maturity Benefit has the option to take the remaining fund value as a lump sum payment at any time during the settlement period (in such a scenario the policy will terminate and all rights, benefits and interests under the policy will stand extinguished).

The instalments will be paid annually with first instalment being paid at maturity. You will also have the flexibility to withdraw the entire Fund Value at any time during the settlement period. You may choose from any of the settlement options listed below, at the least 3 months before the maturity date.

Choice of Settlement period (in years)	Instalment paid *(expressed as a percentage of Fund Value* available at the time of settlement)*				
	Year 1	Year 2	Year 3	Year 4	Year 5
2	50%	100%	-	-	-
3	33%	50%	100%	-	-
4	25%	33%	50%	100%	-
5	20%	25%	33%	50%	100%

Where, *Fund Value including Guaranteed Loyalty Additions

Grace Period
The grace period for payment of the premium shall be 15 days, where the policyholder pays the premium on a monthly basis and 30 days in all other cases.

Alter your investment options with switching
Your investment preferences may change over time. Hence, you can change the mix of your investment options by switching between funds any number of times free of charge. At any time during the policy term and the settlement period, you may instruct us to switch some or all of your units from one unit-linked fund to the other unit-linked fund(s). You can switch some or all units from one fund to another any time during the policy term. Switches advised up to 3:00 pm will be processed at that day's NAV, while switches advised after 3:00 pm will be processed at the following day's NAV. There is no restriction on number of switches allowed in a policy year.

AutoSwitcher facility - AutoSwitcher is a value added service available under this plan whereby it switches the funds automatically as per set of instructions given by you. AutoSwitcher can be used to make programmed switches every month wherein a fixed amount can be switched monthly from one fund to another fund on a fixed date. You can specify the funds from which the desired amounts are to be switched out and the funds to which the amounts are to be credited.

Eligibility criteria for AutoSwitcher

Parameters	Minimum	Maximum
Transfer Amount	₹500	No maximum
Allocation in each Target Fund	15% of transfer amount	Sum allocated to all funds should be 100% of transfer amount
Period of Transfer	6 months	Up to end of policy term

Opt for Systematic Allocator

You have the option to choose the Systematic Allocator at inception of the plan or switch to this option on any policy anniversary. Under this programmed investment solution the fund mix becomes more conservative as the investment goal approaches. The funds are invested in Equity Growth Fund and Bond Fund II based on the residual time to maturity of the plan. This strategy moves the fund allocation towards Bond Fund II as the plan approaches the maturity date. By reducing exposure to Equity Growth Fund, the risk of a sudden drop in the equity market affecting the accumulated value diminishes.

Balance/Residual time to maturity of the plan is used to determine the proportion of allocation to the Equity Growth Fund and Bond Fund II. This proportion is pre-defined by the Systemic Allocator "Glide Path". “Glide Path” is the proportion allocated to the Equity Growth Fund and Bond Fund II based on the time remaining for the plan to attain maturity as shown in the table below. The premiums will be allocated as per this Glide Path and at each policy anniversary, the Fund Value will be rebalanced as per the residual maturity of the plan.

Systematic Allocator “Glide Path”		
Balance time to maturity of the plan (in years)	**Proportion allocated to Equity Growth Fund**	**Proportion allocated to Bond Fund II**
1	5.00%	95.00%
2	10.00%	90.00%
3	15.00%	85.00%
4	20.00%	80.00%
5	25.00%	75.00%
6	30.00%	70.00%
7	35.00%	65.00%
8	45.00%	55.00%
9	50.00%	50.00%
10	55.00%	45.00%
11	60.00%	40.00%
12	65.00%	35.00%
13	70.00%	30.00%
14	75.00%	25.00%
15 and above	80.00%	20.00%

Opt for premium redirection

At any time during the policy term, you can opt to redirect your future premiums in an alternative proportion to the various funds available under the plan. The minimum amount of premium redirection in any investment fund should be at least 15% of the Annualized Premium. This is not applicable if you have opted for the Systematic Allocator. Premium redirection is allowed free of charge as many times as required.

Non-forfeiture options:

Discontinuing premiums after completion of 5 policy years

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium, after lock-in period, the policy shall be converted into a reduced paid-up policy with the paid-up sum assured i.e. original sum assured multiplied by a ratio of “total period for which premiums have already been paid” to the “maximum period for which premiums were originally payable”. However, the mortality charges shall be deducted based on the reduced paid-up sum assured only. In case the policyholder does not surrender or revive the policy within the revival period, the policy will continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be paid to the policyholder and the policy shall terminate.
On such discontinuance, the Company shall communicate the status of the policy, within three months of the first unpaid premium, to the policyholder and provide the following options:

1. To revive the policy within the revival period of three years, or
2. Complete withdrawal of the policy.

In case the policyholder opts to revive the policy but does not revive the policy during the revival period, the fund value shall be paid to the policyholder at the end of the revival period.

In case the policyholder does not exercise any option as set out above, the policy shall continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be paid to the policyholder. Upon such payment the policy shall terminate and all rights, benefits and interests under the policy will stand extinguished.

However, the policyholder has an option to surrender the policy anytime and proceeds of the policy fund shall be payable.

Revival of a Discontinued Policy after the lock-in Period:

The policyholder can revive the policy, in accordance with Section 12 e below. Where the policyholder revives the policy, the policy shall be revived restoring the original risk cover in accordance with the terms and conditions of the policy.

The Company, at the time of revival:

1. Shall collect all due and unpaid premiums under base plan without charging any interest or fee.
2. Shall levy premium allocation charge as applicable.
3. No other charges shall be levied.

Discontinuing premiums within five years of the policy commencement date

On surrender during the lock-in period, the unit fund value after deducting applicable discontinuance charges shall be credited to the Discontinued Policy Fund and risk cover and rider cover, if any, shall cease.

All such discontinued policies shall be provided a revival period of three years from date of first unpaid premium.

On such discontinuance, Company shall communicate the status of the policy, within three months of the first unpaid premium, to the policyholder and provide the option to revive the policy within the revival period of three years.

In case the policyholder opts to revive but does not revive the policy during the revival period, the proceeds of the discontinued policy fund shall be paid to the policyholder at the end of the revival period or lock-in period whichever is later. In respect of revival period ending after lock-in period, the policy will remain in discontinued policy fund till the end of revival period. The Fund management charges of discontinued policy fund will be applicable during this period and no other charges will be applied.

In case the policyholder does not exercise the option to revive the policy, the policy shall continue without any risk cover and rider cover, if any, and the policy fund shall remain invested in the discontinued policy fund. At the end of the lock-in period, the proceeds of the discontinued policy fund shall be paid to the policyholder and the policy shall terminate.

However, the policyholder has an option to surrender the policy anytime and proceeds of the discontinued policy fund shall be payable at the end of lock-in period or date of surrender whichever is later.

Revival of a Discontinued Policy during the lock-in Period:

If the policyholder revives the policy, the policy shall be revived restoring the risk cover, along with the investments made in the segregated funds as chosen by the policyholder, out of the discontinued fund, less the applicable charges in accordance with the terms and conditions of the policy.

The Company at the time of revival:

1. Shall collect all due and unpaid premiums without charging any interest or fee;
2. Shall levy policy administration charge and premium allocation charge as applicable during the discontinuance period. No other charges shall be levied.
3. Shall add back to the fund, the discontinuance charges deducted at the time of discontinuance of the policy.

Discontinued Policy Fund:

The Discontinued Policy Fund will provide a minimum guaranteed interest rate of 4% p.a. from the date of discontinuance of the policy or such rate specified by the Competent Authority from time to time. The excess income earned in the discontinued policy fund over and above the minimum guaranteed interest rate shall also be apportioned to the discontinued policy fund in arriving at the proceeds of discontinued policies and shall not be made available to the shareholders. We will also recover the Fund Management Charge levied on the Discontinued Policy Fund after ensuring the guaranteed return.

SIMPLE TOOLS FOR BUILDING YOUR WEALTH

Smart Growth Plan gives you a wide range of fund offerings that invests in stocks, bond and money market which will boost your corpus efficiently. You can decide to invest in the various fund options and change them from time to time, as you wish. The returns on these funds are dependent on the market performance.

These unit-linked funds are open-ended funds which invest in equity, bond and money market as per your investment objective and risk-return appetite. The Net Asset Value (NAV) of each fund is published on a daily basis. You may invest your premiums into, switch into or switch out of any fund(s) at any time at the prevailing day's NAV. Your gain or loss is the difference between the value at which you invested and the value at which you exited. Remember, the NAV depends on the market value of the underlying investments. Nevertheless, the expected risk and returns will vary from fund to fund.

You can choose from the below tabled fund options and specify the investment percentage allocation to each of your chosen funds:

Fund	Investment Objective	Investment Pattern	Allocation	Risk-return Profile
Equity Growth Fund (SFIN: ULIF04111/01/ 08EQOPP135)	Equity Growth Fund invests in listed stocks and aims to generate high returns by picking stocks that have growth prospects. Minimum allocation to a fund

The minimum amount of premium allocated to any investment fund at time of policy inception or premium re-direction should be at least 15% of the annualized premium.

Unit price (Net Asset Value) formula

The Net Asset Value (NAV) of each segregated fund shall be computed as

NAV = (Market value of investments held by the fund + Value of current assets - Value of current liabilities & provisions if any) / Number of units existing on Valuation Date (before creation/redemption of units).

Fund Management Charge is levied as a percentage of the value of assets and will be appropriated by adjusting the NAV on a daily basis. The uniform cut-off timings for applicability of net asset value in respect of allocations and redemptions will be 3:00 p.m. NAV and its calculation shall be in compliance with Computation of Net Asset Value (NAV) from IRDAI (Insurance Products) Regulations, 2024, as amended from time to time and any other relevant circulars/guidelines/regulations/directions from the IRDAI from time to time.

Applicable NAV

New business premiums will be allocated units at the applicable NAV as on the date of commencement of the policy after completion of the proposal.

At any time during the policy term and during the settlement period, you may instruct us in writing to switch some or all of your units from one unit-linked fund to the other unit-linked fund(s). Such switching between funds can be done any number of times free of charge. Further to which, we shall cancel the units in the old fund and allocate units to the new fund(s) in order to activate the switch. Switching is not allowed if Systematic Allocator is opted. Switches advised up to 3:00 pm will be processed at that day's NAV, while switches advised after 3:00 pm will be processed at the following day's NAV. There is no restriction on number of switches allowed in a policy year.

Switches in the investment fund(s) received before the cut-off time at our designated office through local cheque or demand draft payable at par at the place the premium is received will be allocated units at the same day's NAV. If received after the cut-off time, the units will be allocated at the next business day's NAV.

Renewal premiums paid through outstation cheques or outstation demand drafts will be allocated units as per the NAV on the business day of realisation of the cheques or demand drafts. In case you pay your renewal premiums in advance, the units will be allocated as per the NAV prevailing on the due date of the premium due.

In case of cancellation of units for charges and valid notification and instructions received at our designated office, we will apply the same day's NAV if the request is received before the cut-off time. Else, the request will be processed at the next business day's NAV. The cut-off time will be 3.00 pm.

New funds

Ageas Federal will introduce new funds, from time to time, to meet changing needs of investors, market conditions and regulatory environment. Such new funds may also be made available to our existing customers. We may also modify the existing funds subject to necessary approvals as required by IRDAI. Similarly, old funds may be withdrawn or merged.

Statutory Information

Prohibition of Rebate

The Insurance Act, 1938, prohibits an agent or any other person from passing any portion of his commission to the customer whether as incentive or rebate of the premium. Section 41 of the Act states:

1. No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the Policy, nor shall any person taking out or renewing or continuing a policy, accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the Insurer.
2. Any person making default in complying with the provisions of this Section shall be liable for a penalty which may extend to ten lakh rupees.

Free-look Period

You are entitled to a free look period of 30 days beginning from the date of receipt of the policy document (whether received electronically or otherwise), to review the terms and conditions of the policy. In case you do not agree to any of the policy terms and conditions, or otherwise and have not made any claim, you have the option to return the policy to us for cancellation by communicating the same in writing stating the reasons for cancellation. We will refund you the premium paid after deducting the proportionate risk premium for the period of cover provided and the expenses, if any, incurred by us in respect of medical examination and stamp duty charges. Company shall also be obligated to repurchase the units at the Net Asset Value (NAV) of the units on the date of cancellation. All the benefits under the policy will stand extinguished immediately on the cancellation of the Policy under the free look.

Renewal Premium in advance

Collection of renewal premium in advance shall be allowed within the same financial year for the premium due in that financial year. Provided, the premium due in one financial year may be collected in advance in earlier financial year for a maximum period of three months in advance of the due date of the premium.

The renewal premium so collected in advance shall only be adjusted on the due date of the premium.
