Manage your investment

We offer two ways in which you can manage your investments:

Self Managed Strategy:

You may decide to invest in any of the funds (except Discontinued Policy Fund) provided below. The policyholder will also have flexibility to change the allocation between various available funds from time to time.

Systematic Allocator:

You have the option to choose the Systematic Allocator at inception of the plan or switch to this option on any policy anniversary. Under this programmed investment solution, the fund mix becomes more conservative as the investment goal approaches. The funds are invested in Equity Growth Fund – Pension and Income Fund – Pension on the residual time to maturity of the plan. This strategy moves the fund allocation towards Income Fund – Pension as the plan approaches the maturity date. By reducing exposure to Equity Growth Fund – Pension, the risk of a sudden drop in the equity market affecting the accumulated value diminishes.

Balance/Residual time to maturity of the plan is used to determine the proportion of allocation to the Equity Growth Fund – Pension and Income Fund – Pension. This proportion is pre-defined by the Systemic Allocator "Glide Path". “Glide Path” is the proportion allocated to the Equity Growth Fund - Pension and Income Fund - Pension based on the time remaining for the plan to attain maturity as shown in the table below. The premiums will be allocated as per this Glide Path and at each policy anniversary, the Fund Value will be rebalanced as per the residual maturity of the plan.

Systematic Allocator "Glide Path"

Balance/Residual time to maturity of the plan (in years)	Proportion allocated to Equity Growth Fund – Pension	Proportion allocated to Income Fund – Pension
1	5.00%	95.00%
2	10.00%	90.00%
3	15.00%	85.00%
4	20.00%	80.00%
5	25.00%	75.00%
6	30.00%	70.00%
7	35.00%	65.00%
8	45.00%	55.00%
9	50.00%	50.00%
10	55.00%	45.00%
11	60.00%	40.00%
12	65.00%	35.00%
13	70.00%	30.00%
14	75.00%	25.00%
15 and above	80.00%	20.00%

- You may choose the Systematic Allocator at inception of the plan or opt for this investment option on any policy anniversary.
- Once the Systematic Allocator is chosen, you will not be allowed to do a manual switch or premium re-direction between the funds.
- You may also opt out of the Systematic Allocator at any time and use the "Self Managed Strategy" to manage your funds.
- There are no additional charges for the Systematic Allocator. The Fund Management Charges of the Equity Growth Fund - Pension and Income Fund - Pension shall continue to apply. Other charges as mentioned under Charges section shall also continue to apply. The switches under Systematic Allocator shall be treated as free switch.
- Fund rebalancing basis Systematic Allocator will stop at maturity date.
- Auto Switcher cannot be exercised with Systematic Allocator.

5 Premium Redirection

The redirection of your Premium is allowed free of charge any number of times. Premium redirection instructions will apply only to future premiums paid by you. Minimum amount of premium redirection to any fund should be at least 15% of the Annualized Premium.

6 Discontinuance of Premiums

(1) Discontinuing premiums during the lock-in period:

a. For other than Single premium policies:

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium, the fund value after deducting the applicable discontinuance charges, shall be credited to the discontinued policy fund and the risk cover and rider cover, if any, shall cease.

All such discontinued policies shall be provided a revival period of three years from date of first unpaid premium.

On such discontinuance, Company shall communicate the status of the policy, within three months of the first unpaid premium, to the policyholder and provide the option to revive the policy within the revival period of three years.

In case the policyholder opts to revive but does not revive the policy during the revival period, the proceeds of the Discontinued Policy Fund shall be paid to the policyholder at the end of the revival period or lock-in period whichever is later. In respect of revival period ending after lock-in period, the policy will remain in Discontinued Policy Fund till the end of revival period. The Fund management charges of Discontinued Policy Fund will be applicable during this period and no other charges will be applied.

Only fund management charge will be deducted from this fund during this period. Further, no risk cover shall be available on such policy during the discontinuance period.

(2) Discontinuing premiums after the lock-in period

a. For other than Single premium policies:

Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium, after lock-in period, the policy shall be converted into a reduced paid up policy. The Death

Benefit for a reduced paid up policy shall be same as for an in-force policy. If Golden Waiver of Premium Option is chosen, then in case of death of a reduced paid up policy, future premiums shall not be funded by the insurance company during this period. The formula for Sum at Risk used for calculation of mortality charges will be equal to Maximum (Death Benefit – Fund Value, 0). All charges as per terms and conditions of the policy shall be deducted during the revival period.

On such discontinuance, the Company shall communicate the status of the policy, within three months of the first unpaid premium, to the policyholder and provide the following options:

1. To revive the policy within the revival period of three years, or

2. Complete withdrawal of the policy.

In case you opt to revive the policy but do not revive the policy during the revival period, the fund value shall be paid to the policyholder at the end of the revival period. Upon such payment the policy shall terminate.

In case you do not exercise any option as set out above, the policy shall continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be payable to you. Upon such payment the policy shall terminate and all rights, benefits and interests under the policy will stand extinguished.

However, you have an option to surrender the policy anytime and proceeds of the policy fund shall be payable. Upon such payment the policy shall terminate.

Net Asset Value (NAV)

Each unit-linked fund is divided into number of units of equal value. The value of each unit is the Net Asset Value which we determine regularly. New units are created for cash inflows to the funds and units are realised to meet cash outflows. Cash inflows and outflows advised up to 3:00 pm are processed using that day's NAV, while those advised after 3:00 pm are processed using the following day's NAV.

Unit price (Net Asset Value) formula:

The Net Asset Value (NAV) of each segregated fund shall be computed as

$$NAV = \frac{\text{Market Value of investments held by the fund + Value of current assets – Value of current liabilities \& provisions, if any}}{\text{Number of Units existing on valuation date (before creation/redemption of units)}}$$

Fund Management Charge is levied as a percentage of the value of assets and will be appropriated by adjusting the NAV on a daily basis. The uniform cut-off timings for applicability of net asset value in respect of allocations and redemptions will be 3:00 p.m. NAV and its calculation shall be in compliance with Computation of Net Asset Value (NAV) from IRDAI (Insurance Products) Regulations, 2024, as amended from time to time and any other relevant circulars/guidelines/regulations/directions from the IRDAI from time to time.

New funds

We may offer you new unit-linked funds and also modify the existing ones; subject to approval of IRDAI. We may withdraw one or more unit-linked funds in future. However, you will be intimated in advance to select a new fund (or funds).

Default Fund

Although the Funds are open ended, we may, as per Board approved policy, and subject to prior approval as required by IRDAI, completely close any of the Funds on the happening of any event, which in our sole opinion requires the said Fund to be closed. The policyholder shall be given at least three months prior written notice of our intention to close any of the Funds completely or partially except in Force Majeure conditions, where we may give a shorter notice. In case of complete closure of a Fund, on and from the date of such closure, we shall cease to issue and cancel units of the said Fund and cease to carry on activities in respect of the said Fund, except such acts as are required to complete the closure. In such an event if the units are not switched to another Fund by the policyholder, we will switch the said units to any other appropriate Fund with similar characteristics as per Board approved policy, with due weightage for the respective NAVs at the time of switching, subject to prior approval from the Regulator.

However, no fee would be charged by us for switching to another Fund or exiting from the policy in the event of complete closure of Funds.

We will inform you of changes to this range from time to time.

2. Also, at the beginning of each policy month, the company will estimate the Fund Value at the end of the month after deducting all prospective charges. If the estimated Fund Value is less than the Annualized Premium, the policy shall be foreclosed.

   We will ensure that appropriate communication / notice is sent to the policyholder before foreclosure of the policy.

The foreclosure of the policy is not applicable for an in-force or fully paid up policy.
