In order to opt for PCB, the policyholder and life insured has to be same. Note that PCB can be opted only at inception, this option once chosen cannot be opted out during the entire policy term.

Proportion of RoP milestone and guaranteed addition rates vary by age, premium band and PT/PPT combination. For more details on the rates please refer to the Company Website.

i. **When PCB is not opted by you**

If the Life Insured dies during the Policy Term provided the Policy is in-force or fully paid-up, the Death Benefit payable shall be higher of:

i) Guaranteed Death Benefit
ii) 100% of Surrender value applicable as on date of death

Where, Guaranteed Death Benefit payable shall be higher of:

i) Sum assured on death
ii) 105% of (Total premiums paid plus underwriting extra premiums plus loadings for modal premiums) as on the date of death of life insured

Any accrued survival benefit, if not already paid shall be paid in addition to death benefit. Please refer section 'Option to accrue the applicable survival benefit' for details.

2) Policy continuance benefit: All future survival benefit shall be payable as and when due in future without any need for the premium payment.

  Where RPU Factor shall be the **ratio** of the "total period for which premiums have already been paid" **to** the "maximum period for which premiums were originally payable".

  Any accrued survival benefit, if not already paid shall be paid in addition.

- **Policy Continuance Benefit:** Policy Continuance Benefit shall be available in RPU mode such that in case of death of life insured, following shall be payable:
  - Higher of (RPU Sum Assured on Death, 105% of Total Premiums Paid plus underwriting extra premiums plus loadings for modal premiums), as on the date of death of life insured
  - Future survival benefit (as defined above for a policy in RPU mode).

  In case of survival of life insured, survival benefit, as defined above, shall be payable to all RPU policies.

5. Surrender Benefit

You can surrender the policy any time after it has acquired a surrender value. On payment of the Surrender Benefit, the policy will terminate and no more benefits will be payable.

GSV Factor of GA x accrued Guaranteed Additions (if any)

Where the GSV Factor is provided in the table below:

2	30.00%
3	35.00%
4 -7	50.00%

2. **Special Surrender Value (SSV)**
   a. Before making a request for Surrender, you may approach Us to know about the Surrender Value in respect of Your Policy.
   b. It may be noted that the Special Surrender Value factors and the basis for calculating the Special Surrender Value factors under the Policy may be revised by Us based on the experience or applicable laws.

The income is payable on the date of policy anniversary by default under Long Term Income Variant. However, you have the flexibility to receive income on any date other than the policy anniversary.

- This option is available only in case the income payment frequency is annual.
- This option is available only at inception and no change will be allowed during the policy term.
- Pro-rated income shall be payable in first and last year of the income period in case the chosen income date is different from the policy anniversary date.

OPTION TO CHOOSE THE PAYMENT FREQUENCY FOR INCOME BENEFIT AND LOYALTY INCOME BOOSTERS

You may receive the income benefit and loyalty income boosters at a monthly, quarterly, semi-annual and annual frequency under Long Term Income Variant.

- This option can be exercised at the policy inception or any time during the Survival Benefit Period.
- Both income benefit and loyalty income boosters will be payable at the same chosen frequency.
- The payment frequency can be chosen at inception or can be changed anytime during the policy term by submitting a request at least 30 days before the policy anniversary. In case of change of payment frequency, the change will be effective from the next policy anniversary.
- Income is payable in arrears for the chosen frequency during the income period, for example at the end of year for annual frequency and end of month for monthly frequency.
- Income for other than annual frequency shall be equal to:

Payment Frequency	Income Instalment
Semi-Annual	0.49 * Annual Income

- The accrued benefit will be accumulated at interest rate equal to the "RBI Bank Rate + 1%". The bank rate is published by RBI on its website and this rate will be reviewed annually. The 'Bank Rate' for the previous financial year ending 31st March (every year) will be considered. As the interest rate will be reviewed at the beginning of each financial year, any change in this interest rate will be applicable from 1st July to 30th June to allow sufficient time for making changes in the policy administration system. The current Bank Rate, as applicable at 31st March 2024, is 6.75% p.a.
- The accrued benefit can be withdrawn partly/fully at any time during the policy term. The balance amount will keep accumulating and accrued benefit (if any) shall be payable along with benefits at the time of termination of the policy on death or surrender.

- Whenever you opt for accruing your benefits, your pay-out frequency would automatically be changed to annual, irrespective of the payment frequency chosen earlier. However, upon cancellation of accrual, you may choose to avail your payments monthly or annually.

You can choose to accrue your applicable Income benefit (the sum of income and loyalty income boosters together) and partial accrual shall not be allowed.

(2) A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground of fraud:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees of the insured the grounds and materials on which such decisions are based.

c) any other act fitted to deceive; and
d) any such act or omission as the law specially declares to be fraudulent.

Explanation II – Mere silence as to facts likely to affect the assessment of the risk by the insurer is not fraud, unless the circumstances of the case are such that regard being had to them, it is the duty of the insured or his agent, keeping silence to speak, or unless his silence is, in itself, equivalent to speak.

(3) Notwithstanding anything contained in sub-section (2) no insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement of or suppression of a material fact was true to the best of his knowledge and belief or that such mis-statement of or suppression of a material fact are within the knowledge of the insurer:

Explanation – For the purposes of this sub-section, the mis-statement of or suppression of fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer, the onus is on the insurer to show that had the insurer been aware of the said fact no life insurance policy would have been issued to the insured.

(5) Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.
