b) Choose your Plan Option

c) For Options 2 & 3 - Select Y% (from 50% to 100% in multiples of 5%) ROP or for options 4 & 5 - choose your Guaranteed Proportion (choice of 60/70/80/90%)

d) Receive Annuity payouts at the chosen mode – Monthly in arrears, Quarterly in arrears, Half-yearly in arrears, Yearly in arrears or Yearly in advance, Half-yearly in advance, Quarterly in advance, Monthly in advance.

IV. Eligibility Criteria:

	Minimum[1]	Maximum[1]
Entry Age	**For PoS** Option 2: 40 years **Other than POS** All options – 30 years last birthday	**For PoS** Option 2: 70 years **Other than POS** Option 1, 2 & 4 – 85 years last birthday Option 3 & 5 – 84 years last birthday* *Subject to Annuity starting at a maximum age of: -85 years if entry age is greater than 60 years.

	Minimum[1]	Maximum[1]
Entry Age		-70 years if entry age is less than or equal to 60 years.
Premium Payment Term	**Option 1, 2 & 4:** • Single Pay **Option 3 & 5:** • Single Pay • Regular Pay and Limited Pay: 2 years	**Option 1, 2 & 4:** • Single Pay **Option 3 & 5:** • Single Pay • Regular Pay and Limited Pay: 12 years The annuitant can choose any integer premium payment term between minimum and maximum ranges
Deferment Period (For options 3 & 5 only)	**Single Pay:** 1 year **Regular Pay:** Equal to PPT **Limited Pay:** Premium Payment Term + 1	**Single Pay:** 20 years **Regular Pay:** Equal to PPT **Limited Pay:** Premium Payment Term + 20 years* *Subject to annuity start age limit
Maturity Age	**Not applicable**	
Annuity Amount[2] (₹)	• Yearly in arrears/ Advance: ₹ 12 (in '000s) • Half Yearly in arrears/advance: ₹ 6 (in '000s) • Quarterly in arrears/ advance: ₹ 3 (in '000s) • Monthly in arrears/ advance: ₹ 1 (in '000s) The minimum annuity instalment provided above shall be complied basis initial annuity amount	No limit, subject to Board Approved Underwriting Policy
Purchase Price[3]	Corresponding to minimum annuity amount above	As per maximum annuity chosen
Group size	5	No Limit

1Any reference to Age is as on last birthday.

2The minimum annuity instalment provided in the table above shall be complied basis initial annuity amount

3The Purchase Price referred in the table above means total of all the premiums payable, excluding extra premium, any rider premium, taxes and other statutory levies, if applicable.

The minimum Purchase Price that will produce the minimum annuity mentioned in the table above will depend on the minimum annuity rates, as applicable. Annuity rates may be reviewed by the company subject to IRDAI approval on a periodic basis and the revised rates will be applicable for future new policies.

V. CHOOSE YOUR ANNUITY OPTION

1. Immediate Life Annuity Option

Annuity shall be paid till the annuitant is alive. There is no death benefit payable under this option. Annuity payments commence immediately as per the frequency chosen.

Illustration: Age at Entry: 60 years; Premium Payment Term: Single Pay. Annuity Payout Frequency: Annually in Arrears.

Sample Illustration*:

Age		60
Single Premium		₹ 10 L
Annuity Payable	Yearly	₹ 76,100
	Half-Yearly	₹ 37,289
	Quarterly	₹ 18,454
	Monthly	₹ 6,088

*above annuities are calculated for Male

2. Immediate Life Annuity with Y% Return of Purchase Price Option

Annuity payments commence immediately as per the frequency chosen and annuity is paid till the annuitant is alive

Death benefit is Total Premiums Paid till date.

The multiple (Y%) which is the Percent ROP can range from 50% to 100% in multiples of 5%. These are to be chosen by the policyholder at inception and cannot be changed later.

Illustration: Age at Entry: 60 years; Premium Payment Term: Single Pay; Annuity Payout Frequency: Annually in Arrears; Y% Return of Purchase Price (ROP): 100% & 50%.

Sample Illustration*:

Age		60	60
Single Premium		₹ 10 L	₹ 10 L
Return of Purchase Price		100%	50%
Annuity Payable	Yearly	₹ 62,150	₹ 68,450
	Half-Yearly	₹ 30,454	₹ 33,541
	Quarterly	₹ 15,071	₹ 16,599
	Monthly	₹ 4,972	₹ 5,476

*above annuities are calculated for Male

3. Deferred Life Annuity with Y% Return of Purchase Price Option

Annuity is paid till the annuitant is alive and annuity payments commence after the deferment period selected and as per the frequency chosen.

Death Benefit:

Within Deferment Period:

Death benefit is higher of:

- Total Premiums paid up to date of death + Accrued Guaranteed Additions
- 105% of Total Premiums Paid (excluding loading for modal premiums) up to date of death.

Post Deferment Period:

Death benefit is Y% of Total Premiums paid

The multiple (Y%) which is the Percent ROPP can range from 50% to 100% in multiples of 5%. These are to be chosen by the policyholder at inception and cannot be changed later.

Illustration: Age at Entry:60 years; Premium Payment Term: Single Pay; Deferment:1; Annuity Payout Frequency: Annually in Arrears; Y% ROP: 100% & 50%

Sample Illustration:

Age		60	60
Single Premium		₹ 10 L	₹ 10 L
Return of Purchase Price		100%	50%
Annuity Payable	Yearly	₹ 63,050	₹ 69,750
	Half-Yearly	₹ 30,895	₹ 34,178
	Quarterly	₹ 15,290	₹ 16,914
	Monthly	₹ 5,044	₹ 5,580

*above annuities are calculated for Male

Illustration*: Age at Entry: 50 years; Premium Payment Term: 10; Deferment: 10; Annuity Payout Frequency: Annually in Arrears; Y% ROP: 100% & 50%

Age		50	50
Single Premium		₹ 1 L	₹ 1 L
Deferment		10	10
Return of Purchase Price		100%	50%
Annuity Payable	Yearly	₹ 87,700	₹ 93,200
	Half-Yearly	₹ 42,973	₹ 45,668
	Quarterly	₹ 21,267	₹ 22,601
	Monthly	₹ 7,016	₹ 7,456

*above annuities are calculated for Male

Annuity payable under option 4 & 5 shall comprise of Guaranteed Annuity and Variable Annuity amount.

Provisions specific to Variable Annuity Option (Option 4 & 5):

Guaranteed Annuity (GA):

The GA is calculated by multiplying the Initial Annuity Amount (IAA) with the guaranteed proportion (gtd%) selected by the policyholder.

The available guaranteed proportions are 60%, 70%, 80%, and 90%. Once selected at the inception of the policy, this proportion cannot be changed later. Such Guaranteed Annuity shall remain fixed throughout the currency of the policy & will not change basis index movement.

IAA for Option 4 & 5 is the yearly annuity as applicable under life annuity with 100% Return of purchase price of Option 2 & 3 respectively.

Variable Annuity (VA):

The Variable Annuity at every rebase time "t" is determined as follows:

- On the first annuity payment date:

$$VA(t)=IAA*(1- gtd\%) \times \frac{\text{Accumulated Premium @ Net Index Return}}{\text{Accumulated P remium @ AIR}}$$

- After the first annuity payment date:

$$VA(t)=\text{Last Rebased VA} \times \frac{(1+ \text{Net Index Return from last rebase date})}{(1+ \text{AIR})}$$

Where:

1. Net Index return is Index return from last rebase date minus spread of 0.5% p.a., where spread is on account of insurer's charges. Suppose Index value at 1st April 2025 was 100 and at 1st July 2025 it was 102.5, then Net index return shall be 102.5/100 – 0.5%/4 = 2.5% - 0.125% = 2.375%
2. AIR is Assumed interest return (7% p.a.). If frequency of rebasing is quarterly, then AIR shall be based on quarterly derivation. AIR shall be fixed for full term of the policy. AIR shall be calculated from last rebase date to new rebase date
3. Rebasing date is taken as end of each policy year's quarter.
4. No rebasing shall apply on annuity payments made before the end of first 3 months from policy's inception; hence variable annuity during this period shall be equal to IAA * (1 – gtd%). Annuity payment made at the end of 3rd month shall be based on rebased returns.
5. Index applicable is NIFTY 50
6. Accumulated premium is calculated basis premiums received

Determination of Index Returns/Value for Benefit Calculation

- On Receipt of Premiums Index value of the next business day after premium receipt shall be considered.
- On Surrender/withdrawal value calculation Index value of the business day preceding the surrender request date shall be considered, i.e. return on surrender request date shall be taken nil.
- Quarterly rebasing for annuity payments Index value of the business day preceding the end of policy's quarter shall be considered. Annuity payments made till next rebase date shall be based on the rebased amount as mentioned above.

Final Annuity:

Final Annuity Payment shall be sum of Guaranteed Annuity and Variable Annuity.

4. Immediate Life Variable Annuity with Return of Purchase Price

Annuity is paid till the annuitant is alive and comprises of guaranteed annuity and variable annuity and the same shall commence immediately as per the frequency chosen.

Death benefit is Total Premiums Paid till date.

Illustration: Age at Entry: 60 years; Premium Payment Term: Single Pay; Annuity Payout Frequency: Annually in Arrears; Guaranteed Annuity %: 60%

The illustration mentioned below is for the Scenario where the benchmark is based on a 20-year NIFTY 50 TRI cycle from 2005 to 2025; for subsequent years, the same 20-year NIFTY 50 TRI CAGR of 14% is applied.

Sample Illustration:

Age	Guaranteed Annuity (₹)	Variable Annuity (₹)	Total Annuity (₹)
60	37,290	34,339	71,629
65	37,290	46,544	83,834
70	37,290	47,222	84,512
75	37,290	63,278	1,00,568
80	37,290	91,326	1,28,616
85	37,290	1,24,566	1,61,856
90	37,290	1,69,905	2,07,195
95	37,290	2,31,747	2,69,037
99	37,290	2,97,070	3,34,360

*above annuities are calculated for Male

5. Deferred Life Variable Annuity with Return of Purchase Price

Annuity is paid till the annuitant is alive and comprise of guaranteed annuity and variable annuity and the same shall commence post deferment period as per the frequency chosen.

Death Benefit:

Within Deferment Period:

Death benefit is higher of:

- Total Premiums paid up to date of death + Accrued Guaranteed Additions
- 105% of Total Premiums Paid (excluding loading for modal premiums) up to date of death.

Post Deferment Period:

Death benefit is Total Premiums paid

Illustration: Age at Entry: 50 years; Premium Payment Term: 10; Deferment Period: 10 years; Annuity Payout Frequency: Annually in Arrears; Guaranteed Annuity %: 60%;

The illustration mentioned below is for the Scenario where the benchmark is based on a 20-year NIFTY 50 TRI cycle from 2005 to 2025; for subsequent years, the same 20-year NIFTY 50 TRI CAGR of 14% is applied.

Sample Illustration*:

Age	Guaranteed Annuity (₹)	Variable Annuity (₹)	Total Annuity (₹)
60	52,620	44,468	97,088
65	52,620	59,588	1,12,208
70	52,620	86,000	1,38,620
75	52,620	1,17,302	1,69,922
80	52,620	1,59,997	2,12,617
85	52,620	2,18,232	2,70,852
90	52,620	2,97,663	3,50,283
95	52,620	4,06,005	4,58,625
99	52,620	5,20,446	5,73,066

*above annuities are calculated for Male

VI. Death Benefit:

The Death Benefit will be paid:

- **On death of the annuitant**

The table below sets out the Death Benefits for different annuity options:

Plan Option	Death Benefit
Option 1	No death benefit payable
Option 2	Y % of Total Premiums Paid till date
Option 3	**Within Deferment Period:** Death benefit is higher of: • Total Premiums paid up to date of death + Accrued Guaranteed Additions • 105% of Total Premiums Paid (excluding loading for modal premiums) up to date of death. **Post Deferment Period:** Death benefit is Y% of Total Premiums paid
Option 4	Total Premiums Paid till date
Option 5	**Within Deferment Period:** Death benefit is higher of: • Total Premiums paid up to date of death + Accrued Guaranteed Additions • 105% of Total Premiums Paid (excluding loading for modal premiums) up to date of death. **Post Deferment Period:** Death benefit is Total Premiums paid

In addition to the above, under all the options, the balance in the Sub-wallet, if any, will be paid at the time of death of the annuitant.

Life Assured(s)

All Options are available on a single life basis only.

VII. Definitions and conditions:

The following definitions and Conditions apply:

"Total premiums paid" means total of all the premiums paid under the base product, excluding any extra premium and taxes, if collected explicitly.

"Annualised Premium" shall be the premium amount payable in a year under a non-single pay option chosen by the policyholder, excluding the taxes, rider premiums, underwriting extra premiums and loading for modal premiums.

"Single Premium" shall be the premium payable under a single pay option chosen by the policyholder, excluding the taxes, rider premiums, underwriting extra premiums, if any.

"Purchase Price" means total of all the premiums payable, excluding extra premium, any rider premium, and taxes.

"Reduced Paid-up (RPU) Factor" shall be a ratio calculated as the total period for which premiums have already been paid divided by the maximum period for which premiums were originally payable.

"Deferment Period" is the period measured in years from the inception of the policy, during which no annuity is payable and is chosen at inception under Options 3 and 5. The Deferment Period chosen can be as below subject to annuity start age limit.

- Single Pay: Between 1 to 20 years
- Regular Pay: Equal to Premium Payment Term
- Limited Pay: Between Premium Payment Term + 1 to Premium Payment Term + 20 years

VIII. Annuity Payment Frequency:

The annuity payments will be payable as per the chosen annuity payment frequency from the date of purchase of the plan (for Immediate Life Annuity variants) or from the end of Deferment Period (for Deferred Life Annuity variants).

This implies that

Frequency	Annuity pay-out would start after
Annually in arrears	One year from the end of Deferment Period or end of Annuity start year
Half-yearly in arrears	Six months from the end of Deferment Period or beginning of Annuity Start Year
Quarterly in arrears	Three months from the end of Deferment Period or beginning of Annuity Start Year
Monthly in arrears	One month from the end of Deferment Period or beginning of Annuity Start Year
Annually in advance	End of Deferment Period or beginning of Annuity Start Year
Half-yearly in advance	End of Deferment Period or beginning of Annuity Start Year

Frequency	Annuity pay-out would start after
Quarterly in advance	End of Deferment Period or beginning of Annuity Start Year
Monthly in advance	End of Deferment Period or beginning of Annuity Start Year

Annuity frequency can be changed at policy anniversary except when the Annuity instalment will breach the minimum Annuity instalment.

Annuity instalments for frequencies other than annual shall be as specified below:

Frequency	Annuity Instalment (per frequency)
Annually in arrears	100% of Yearly Annuity
Half-yearly in arrears	98% of Yearly Annuity x ½
Quarterly in arrears	97% of Yearly Annuity x ¼
Monthly in arrears	96% of Yearly Annuity x 1/12
Annually in advance	93% of Yearly Annuity
Half-yearly in advance	94.5% of Yearly Annuity x ½
Quarterly in advance	95% of Yearly Annuity x ¼
Monthly in advance	95.5% of Yearly Annuity x 1/12

Yearly Annuity refers to the initial annuity amount paid in respect of frequency Annually in arrears.

The policyholder has to choose from annuity in arrears or advance at inception only and cannot be modified subsequently.

IX. Non-forfeiture Benefits:

You are eligible for the following benefits under this product:

LAPSE:

On discontinuance of payment of premium during the first policy year for a non-single-pay policy, it will lapse at the end of the grace period and no further benefits shall be paid. The policy can be revived within the period of 5 years from the due date of first unpaid premium by payment of all due premiums together with interest. Upon revival of the policy, all benefits shall be restored and be applicable with effect from the date of revival. The policy will be terminated at the end of revival period if not revived.

REDUCED PAID-UP BENEFIT:

On discontinuance of payment of premium any time after the payment of first year's premium for a non-single-pay policy, it will be made reduced paid-up at the end of the grace period. The benefits to be paid in case of reduced paid-up policies are as follows.

- **Death Benefit:** The Death Benefit as detailed above shall be payable.
- **Survival Benefit:**
  - Option 1, 2 & 4: Not Applicable
  - Option 3: The RPU Survival Benefit shall be equal to

the Yearly Annuity multiplied by RPU Factor

- Option 5: The RPU Survival Benefit shall be sum of RPU Guaranteed Annuity and RPU Variable Annuity:
  - RPU Guaranteed Annuity = Guaranteed Annuity multiplied by RPU Factor
  - RPU Variable Annuity = As per Variable Annuity formula defined above multiplied by RPU Factor

* RPU Factor has been defined above

Surrender Benefit

No surrender benefit is applicable for Option 1.

For all other options, surrender value shall be payable basis the Premium Payment Mode as defined below.

Premium Payment Mode	Surrender Value payable
Single Pay	At any time after Policy Commencement Date
Regular / Limited Pay with PPT < 5	Payable immediately provided at least 1 full year's premium has been paid
Regular / Limited Pay with PPT>= 5	Payable after completion of first policy year provided at least 1 full year's premium has been paid

It is advisable to continue your policy in order to enjoy full benefits of your plan. However, we understand that in certain circumstances you may want to surrender your policy. Surrender benefit available under different plan options is as follows:

For Option 2 & 4:

Surrender Value shall be equal to Special Surrender Value.

For Options 3 & 5:

Surrender Value shall be Maximum of (Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV))

Details of Surrender Value computation has been outlined in the Policy Document. Please go through the policy document for surrender value factors and computations for understanding the surrender values.

In addition to the above, under all the options, the balance in the Sub-wallet, if any, will be paid to the policyholder upon surrender.

Upon payment of the surrender benefit the policy shall terminate and all other benefits shall cease.

In case of surrender of a group Policy by the Master Policyholder, the annuitant/ members of the group will be given an option to continue on an individual basis. These annuitants/members will be directly serviced by the Insurance Company. The Policy will be endorsed to this effect, and the annuitants/members will be intimated of the same. After the surrender by the existing master policyholder, no new annuitants/members can be enrolled under the Master Policy.

X. Riders

The below mentioned rider(s) would be available with the base product:

- Tata AIA Life Insurance Non-Linked Comprehensive Protection Rider (UIN:110B033V04 or any other later version)
- Tata AIA Life Insurance Non-Linked Comprehensive Health Rider (UIN: 110B031V03 or any other later version)
- Tata AIA Vitality Health (UIN: 110B045V03 or any later version)
- Tata AIA Vitality Protect (UIN: 110B046V04 or any later version)

These riders can be attached effective policy inception or any policy anniversary of the base plan subject to the rider premium payment term and the policy term shall not be more than the outstanding premium payment term and outstanding Deferment Period for the base plan.

If there is overlap in benefit offered under different riders with the base product, then that benefit under the rider will not be offered. In case the product is purchased under PoS, then no rider can be attached.

Such rider attachments will be as per the 'Board approved underwriting policy' (BAUP) of the Company. The riders shall be offered in compliance with the provisions of IRDAI (Protection of Policyholders' Interests, Operations and Allied Matters of Insurers) Regulation, 2024.

XI. Options available under this product

Sub-wallet:

- At inception or any time during the policy term, the policyholder can choose to receive full or part of his benefits into his 'Sub-Wallet'
- The Sub-wallet will earn a loyalty addition that will accrue on a monthly compounded basis.
- The loyalty addition rate shall be at which RBI absorbs liquidity which currently is the Standing Deposit Facility (SDF) rate.
- The current Standing Deposit Facility rate is 5.25% p.a. and the same shall be reviewed bi-monthly.
- The Company may in future change the reference rate from Standing Deposit Facility rate to some other index with due prior communication to all concerned policyholders. Any change in basis shall be subject to prior approval of IRDAI.
- The policyholder can withdraw the balance from the Sub-wallet, in part or in full, anytime during the policy term.
- The policyholder can dynamically set / amend the proportion of the benefit receivable into his Sub-wallet any time during the policy term by prior intimation to the Company

Others:

- Change of premium payment frequency
- Change of Nomination/ Assignment/ Appointee
- Change of Annuity frequency at policy anniversary

No other change is allowed apart from those mentioned above.

XII. Purchase options

The options available under this product are:

1. **Utilization of Return of Purchase price for NPS subscribers**

In case this annuity option is purchased as a default option by a NPS subscriber through funds accumulated in his/her NPS scheme

The company shall offer an additional annuity of 1.50% of the annuity rate.

2. **Bulk Annuity purchase**

This plan can be utilised for bulk annuity purchase by a scheme set up to provide regular pension benefits for its members. Such purchase will be subject to applicable scheme rules and must comply with the eligibility conditions as approved for this product.

3. The company shall offer an additional annuity of 1.50% of the annuity rate. **Option to purchase this plan as QROPS (Qualifying Recognized Overseas Pension Scheme):**

This plan can be purchased as QROPS, through transfer of UK tax relieved assets subject to listing and terms and conditions prescribed by HMRC (Her Majesty Revenue & Customs) such as:

Minimum entry age for annuity payment shall be 55 years (last birthday).

If the policy is cancelled during the Free Look Period, the proceeds from cancellation shall only be transferred back to the fund house from where the money was received.

Other terms and conditions of HMRC shall also apply as applicable from time to time.

If this product is purchased as Qualifying Recognised Overseas Pension Scheme (QROPS) through transfer of UK tax relieved assets, the minimum entry age for payment of annuity will be governed by the rules defined by Her Majesty's Revenue and Customs (HMRC) from time to time.

XIII. Discounts

Digital discounts:

The company shall offer an additional annuity of 1.50% of the annuity rate for all such digital/online sales.

Staff & Family of Staff Rebate:

The company shall offer an additional annuity of 1.50% of the annuity rate to the Employees of the promoter group namely, the Tata and the AIA group, its Subsidiaries, fellow subsidiaries, Joint Ventures (which shall include Tata AIA Life Insurance Company Limited amongst others) and their Associates on the policies sourced by the Company.

Existing Customer:

The company shall offer an additional annuity of 1.50% of the annuity rate to Existing Customers of Tata AIA Life's Insurance Products as on the date of application.

Nominee & Family Discount:

The company shall offer an additional annuity of 1.50% of the annuity rate to the nominee and family member of the existing customer of TATA AIA Life's Insurance products as on the date of the application.

Worksite:

The company shall offer an additional annuity of 1.50% of the annuity rate to the customers on the policies sourced through worksite.

Worksite sourcing is policies sourced through campaigns/ stalls / help desks or similar engagement activities conducted for a group.

The customers can avail only one of the following benefits described above:

- Digital & Online Sales
- Staff & Family of Staff Rebate
- Nominee & Family Discount
- Existing Customer
- Worksite

XIV. Other plan features/ Terms and Conditions

Free Look

If the Master Policyholder / annuitant is not satisfied with the terms & conditions of the policy, s/he has the right to cancel the Policy by providing written notice to the Company and receive a refund of all premiums paid without interest after deducting Stamp duty and Medical examination costs (including goods and services tax), if any which have been incurred for issuing the Policy. The proportionate cost of mortality is immaterial and hence ignored for administrative simplicity. In case any annuity payment has been made before processing of the Free Look cancellation amount, we shall recover the same from the refund amount due to the policyholder.

Such notice must be signed by the Master Policyholder / annuitant and received directly by the Company within 30 days after the Master Policyholder / annuitant receives the Policy Document.

However, the following exceptions apply:

- If the policy is purchased through proceeds from subscribers NPS funds as detailed in sub-section h. (below), the proceeds from cancellation in the free-look period shall only be transferred back to the Central Record Keeping Agency from where the money was received.
- If the policy is purchased as part of bulk annuity as detailed in sub-section h. (below), the proceeds from cancellation in the free-look period shall only be transferred back to the source as per applicable scheme rules.

If the policy has been purchased as QROPS, the proceeds from cancellation shall only be transferred back to the fund house from where the money was received.

Grace Period:

Grace Period is the time provided after the premium due date during which the policy is considered to be in force with the risk cover. This plan has a grace period of 30 days for yearly, half yearly and quarterly frequencies from the premium due date. The grace period for monthly frequency is 15 days from the premium due date.

Revival Period:

If a premium is in default beyond the Grace Period and subject to the Policy not having been surrendered, it may be reinstated/revived, within five years after the due date of first unpaid premium and before the end of deferment period, subject to: (i) Policyholder's written application for reinstatement/revival; (ii) production of Insured's current health certificate and other evidence of insurability, satisfactory to the Company; and (iii) payment of all overdue premiums with interest.

The evidence of insurability and any medical requirements or health declarations requested at the time of reinstatement/revival will be in line with the Board approved Underwriting Policy.

Any reinstatement/revival shall only cover loss or insured event which occurs after the reinstatement/revival date. The guaranteed additions which had not accrued on account of the policy being in lapse or reduced paid up status will accrue on the date of revival.

The applicable interest rate for revival is determined using the SBI domestic term deposit rate for '1 year to less than 2 years', plus 2%. The rate of interest on revival with effect from 1st October 2025 is 8.40% simple p.a. (i.e. SBI interest rate of 6.40% + 2%) plus applicable taxes. The interest rate applicable is reviewed every 6 months and gets updated as per the given formula. Any alteration in the formula will be subject to prior approval of IRDAI.

Policy Loan:

On completion of one policy year for other than Option 1, provided one full year's premium is paid, policyholders may apply for a policy loan. The Policy must be assigned to Tata AIA Life.

Maximum amount of loan that can be granted under the policy shall be such that:

- it does not exceed 80% of surrender value
- the amount of loan plus interest till end of deferment period, if any, would not exceed 90% of the Total Premiums Paid (excluding loading for modal premiums) assuming no further premium payments, if any
- effective annual interest amount payable on loan immediately (in case of Option 2 and 4) or post the end of deferment (in case of Option 3 and 5) would not exceed 50% of the annual annuity amount payable under the policy assuming no further premium payments, if any

The loan interest will be recovered from the annuity amount payable under the policy. The loan interest will accrue as per the frequency of annuity payment under the policy and it will be due on the date of annuity. The loan outstanding shall be recovered from the claim proceeds under the policy. However, the annuitant has the flexibility to repay the loan principal at any time during the course of the policy.

For inforce and fully paid up policies, the policy will not be foreclosed if the outstanding loan amount including interest exceeds the surrender value. However, for other than in-force and fully paid up policies, if the outstanding loan amount including interest exceeds the surrender value, the policy will be foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.

Interest rate applicable to policy loan shall be calculated as the average annualized 10-year G-Sec yield (over last 6 months; rounded up to the nearest 50 bps) + 2%.

The interest rate on loans is verified & updated on the Company's systems every six months (on 1st April & 1st Oct every year) as per the given formula. The current interest rate for Loan from 1st October 2025 is 9.00% p.a. compounding annually. Any change in loan interest rate formula will be implemented post approval of IRDAI.

There shall be no discretion of the Insurer in granting the policy loan to identical/similar annuitant. Further, there shall be no discretion of the Insurer in the quantum of loan granted (subject to the quantum being within permissible limits).

Exclusions

- **Suicide Claim Provisions**

  In case of death due to suicide within 12 months:

- From the date of commencement of risk under the policy or from the date of revival of the policy, as applicable, the nominee or beneficiary of the policyholder shall be entitled to at least 80% of the Total Premiums Paid till the date of

death or the surrender value available as on the date of death whichever is higher, provided the policy is in force; or

This is applicable for all options except option 1.
